## **EDITORIAL**

After its one month absence. Insult Corner returns with a vengeance. Yet more readers have sent in sad photos of themselves with the express purpose of having themselves viciously put down in a manner of our choosing. The Editorial is also the place where Julian "Jaz" Rignall spouts forth on the subject of his choice - and you wouldn't want to miss that,

#### **NEWS**

10 Once again, MEAN MACHINES

has provided YOU with four information-packed news pages detailing the startling, sordid stories circulating around the consoles world. Suffice to say, if it's worth knowing, we know it. and if it isn't on these pages, we still do, but don't want to tell you.

#### WWF SPECIAL 18 Yes! MEAN MACHINES is the

ONLY mag with the exclusive preview of what is going to become one of the Super NES sensations of 1992! WWF Super Wrestlemania is the name of the game and let us tell you something about it - it's completely MEGA!

## MEAN YOR

The letters section is supposed to be the part of the mag covered with your ejaculations on topics concerning the consoles universe. More often than not it becomes a veritable insult fest because the meanest letter answerer of them all, MEAN YOB, doesn't take fools likely.

#### Q+A 30

Q+A! Dontyajustluvit? It's the best bit of the mag by far, where you lot have your questions answered by the man who knows, Julian Rignall. It's also supposed to be quite entertaining, as people who ask stupid questions are treated in a manner befitting their retarded intellects.

**MEAN MACHINES 4**

102

#### TIPS

Well, tips are tips really. There's not that much more to it. Maybe that's a bit of a spin though, because this month we have THREE massive two-page tips specials, along with SIX info-packed pages of much significance in the cheating department.

34

80

#### CHARTS

This two-page spread is literally littered with the names of top-selling games, carefully arranged to look like charts. By looking at this section, you might think that it takes Rich five minutes to twite and Oz about twenty minutes to lay-out. And indeed, you wouldn't be that far from the truth.

#### THE HOTLINES

It's the usual type of telephonic prize-related horseplay should you dare to glance at this page, which, you'll no doubt notice is exactly the same as last month's. As you can tell, no expense is spared here at MEAN MACHINES.

# MEGAMART 115 Having trouble selling your

console? Reckon that MEAN MACHINES is the place to advertise your gear? Well, reckon no longer. Just fill in the coupon on page 115 and send away your English pound and that advert will be yours. Cool, eh?

# PREVIEWS 116 Have you got a treat here! Using

their unrivalled contacts in the zany madcap world of console entertainment, the McANMACHINES lads have provided YOU with all the latest info on the hottest new games. Can't say fairer than that, can we?

#### **NEXT MONTH 121**

Well, we tried. We got the best crystal ball money can buy but we still can't improve our clairvoyant skills. Still, this page is what we did come up with.

# YOU TOO CAN ENJOY THESE

# NEW MEGA ACTION GAMES IN THE

COMFORT OF YOUR OWN HOME

Hold on to your consoles!

And get ready for the roughest, toughest and fastest games yet.

In EA Hockey, from the team that brought you John Madden American Football", you get no points for being nice. So body-check, punch, slash and trip the opposition into submission. Get the puck into the back of the net or between the goalie's eyes, it's all part of the fun.

Should you find the rules an unnecessary hindrance, simply send the referees off to the sin bin and create even more havoc without them.

Rules won't worry you at all in Road Rash, the wildest action on two wheels. There aren't any.

There is a race. Across 5 highways from the Sierra Nevadas to the Pacific coast. But it's your skill in kicking, punching and clubbing all-comers out of your road that really counts.

As a bonus, if you get to cross the finishing line first and more or less in one piece, win cash and upgrade your bike to an even more ludicrously fast machine.

Road Rash and EA Hockey are just two of the newest games for your Mega Drive™.

Also available soon from Electronic Arts are:

The Immortal™, Fatal Rewind™, Shadow of the Beast™. Starflight™ and Dark Castle™.

# AIR MALARKEY

Activision have a number of new Nintendo products in the pipeline, including a great arcade-style shoot 'em up called Ultimate Air Combat.

This sprite-based 3D game promises to be everything Top Gun II promised to be, with superb graphics, massive amounts of missions and a choice of 'planes. The MEAN MACHINES gang have seen the game in action and reckon it's pretty ace!

The game is scheduled for a British release sometime this year, probably during the Summer. We'll give you a full review later on this year.

# UPHOLD THE LAW

Coming soon to a Gameboy, Nintendo and Super NES near you soon is Robocop III - the third gaming installment of cyborg-related skylarking.

OCP have taken over Detroit and air sending in Rehab Officers to clear out the residents. When Roboccop winesses the bruilal methods CCP employ, he joins the resistance movement and starts meting out his own brand of frearm-style justice. For this third outing, Robo's been endowed with new, even more powerful weaponry including a multi-weapon arm attachment (containing a massive cannont) and a jet-pack for airborne assault!

Programming has just begun on all three versions, so as soon as we know more about the games, we'll let you know.

Fans of DC Comics' Balman are in for a vertiable feast of flying orden-related horseplay. Sunsoft, responsible for all versions of the first Balman game, have announced that they will be programming the sequel for the Megadrive, and it should be out here officially in the Autumn of this year. From the looks of it, Balman II is aplatom game similar to the first effort, but superior in terms of graphics, sound and gameplay.

As we've already told you, the Nintendo version is already out in the States and has attracted good reviews from the American press. Batman II on the Gameboy also looks likely, as does a conversion for the Sega Master System. Keep an eye out later on in the year for these.

# ACCLAIM TAKE CONTROL

As you may know, Mirrorsoft recently ran into administrative difficulties (owing to their links with the infamous Robert Maxwell). This put the release of their products on hold. Thankfully, Nintendo giants Acctaim stepped in and bought up Mirrorsoft and are proceeding to release their finished Seag products.

During March, you can expect to see the Master System version of Back To The Future III on the shelves. May sees the Mirrorsot/Acclaim game-producing engine going into overdrive, with the release of Speceball III on Megadrive and Master System). Back to the Future III and Xenon II (both on the Megadrive).

Acclaim also have the rights to the likes of Predator II. The Simpsons and Aliens III on the Sega machines. MEAN MACHINES will be giving you more details about these new games in the coming months.

# **ACCLAIM ON SEGA**

Acclaim are going full speed ahead some potentially awesome products for the Sepa Master System. Included in the 8-bit line-up are The Simpsons: Bart vs the Space Mutants, a conversion of the popular Nintendo title, Smash TV, the awesome Williams con-op, and WWF Wrestlemania (see the Super NES preview deserberth is issue). These will all be released under the Imageworks brand name which they recently accurated when they bount Mirrorsoft.

There are no firm release dates for any of this gear, but we'll have more information in a couple of months' time.

A Super NES shot of Smash TV. Let's hope that the Master System version is as playable!

# GODZILLA RETURNS!

Godzilla, the Nintendo game featuring the word's favourite rubber dinosaur, should be officially released in the UK in the near future. However, American Nintendo owners are looking forward to the further adventures of their unrealistic idol in Godzilla II: War of the Monsters.

play. The first is a war game style affair, where your campaign against the enemy monsters is strategically planned. When confrontations arise, the game flicks to a side-on beat 'em up screen, where the human forces (aided by Godzilla) take on the latex menace in a battle to the death.

No UK launch has been revealed as yet, but if that situation changes, we'll let you know.

# ANOTHER FINAL FIGHT!

Due to public demand, the Japanese division of Capcom have released a new version of Final Fight on the Super Famicom.

This new Japanese version has the missing factory level from the coin-op and also includes the third character - the orange-clad ninja, Cuy - the trade-off being that Cody hasn't made it into the new game. If you want to learn more about this game or perhaps even get your hands on it, contact your favourite importer for more details.

# **NINTENDO BABOONERY**

Toki, Fabtek's coin-op of platform-related monkey business is coming out on the Nintendo! Unveiled at the Winter CES Show, it looks like being a pretty close conversion of the arcade machine. If you want to know more about

the game, check out the Megadrive review on page 106. Hopefully this new version will be a more exciting than the lacklustre 16-bit game.

# **JALECO** NINTENDO GEAR

Jaleco have unleashed a whole new set of Nintendo games in America, including some pretty major coincip lies to the pretty major coincip lies of the pretty major coincip lies lies of the pretty major coincip lies lies of the pretty lies of the pretty major coincip lies lies of the pretty lies of

Irem have unveiled a potentially skillful new golf game for the Super NES. The Irem Skins Game, as it is rather strangely called, looks like being pretty similar to the ace PGA Tour Golf in concept, with one added extra - you can place a fine wager on your performance!

The Irem Skins Game looks like being pretty cool. As you can see, the graphics are pretty damn ace, and there are a whole load of options to tweak to your heart's delight too. We'll give you more details on the matter as soon as we get our hands on them.

# SOCCER AT IT'S BEST.

jazzed-up version of the ancient coincing. Hunchback, for the Nintendo Gameboy. Super Hunchback as it's known, once again stars the player as Ouazamdoo out for recue Eamereda from the activities of Chazamdoo out for recue Eamereda from the activities of Chazamdoo out for recue Eamereda from the Eamereda from the Chazamdoo out of the Chazamdoo out of February February

The Rescue of Dino & Hoppy

BEDLAM IN BEDROCK!

Coin-op giants Taito have programmed a new Nintendo game based on the "loovable" Flintstones to coincide with their thirtieth anniversary.

Dino and Hoppy, Fred and Barney's pets have been viciously kidnapped, so it's down to the unlikely heroes to traverse the horizontally scrolling terrain that is Bedrock, avoiding nasty enemies like Sabre Tiger and Frankenstone. Tail's press release promises

that this game will "leave you in stone-age stitches". Unfortunately, we won't find out for a long time because there's no official UK release as yet - doh!

Elite Systems, responsible for Nintendo Dragon's Lair and Caveman Ninja, are getting heavily into Super NES products. Their first effort is a completely new Dragon's Lair game.

Unlike the coin-op, which featured real cartoon action on a laser disc, this Super NES game is a Mario-style platform action game. Rich was lucky enough to see an in-development version of

the game, and reckons that it could well be dead smart. Unlike the NES game, the programmer has put playability first, and as such the game has an extremely polished feel.

Elite reckon to have the game finished by May, but it's not going to be out until Christmas this year

# DO YOU WANT TO WORK

We need an all-new Staff Writer!

# SPECIAL NEW GAME

# PREVIEW

After a successful bout on the 8-bit Nintendo and Gameboy, those WWF wrestlers are set to hit the Super NES in real style!

Acclaim's Super WWF Wrestlemania adopts the usual ringside view of the proceedings, but incorporates big, detailed sprites and the most stunning animation yet seen on a wrestling game! The programmers have digitised ten of most popular WWF wrestlers and incorporated around 20 different moves

for each of them.

MEAN MACHINES has had an exclusive sneak
preview of Super WWF Wrestlemania and it looks like
being the greatest wrestling game yet seen on any
console! We'll be running a full review in a future issue
of MEAN MACHINES.

▲ Sid Justice pins the Undertaker, but his team mate, Jake "The Snake" Roberts prepares to kick him loose.

▲ A grapple between the giants.

# THE UNDERTAKER

Hailing from Death Valley in the USA. The Undertaker is one of the most feared WWF wrestlers around. He gets his kicks by carting his victims out of the ring in a body bag! Although he hasn't got time for that type of tomfooley in the game, he more than makes up to it with sheer power and almost unsurpassed grappling skills.

# NEW GAME PREVIEW

▲ The Snake tags the Undertaker, who prepares to finish off Earthquake.

Animal and Hawk combine to become the Legion of Doom - the current tag learn champions of the WWF. Following the January Royal Rumble, their most hated adversaries are the Natural Disasters. This rivalry extends into the game, mainly because they're the only two tag teams included.

Just as lethal as the psychotic Animalf The Legion of Doom's tag team speciality is the Doomsday Device, where Animal hosists a foe onto his shoulders and Hawk climbs the turnbuckle and floors the hapless enemy by producing a lethal flying clothes line! Unfortunately, this move isn't in the game.

THE NATURA DISASTER

One of the heaviest WWF wrestlers, Earthquake is one half of the Natural Disasters tag team. They ve sworn vengeance on the Legion of Doom after a small technicality deprived them of the tag team championship title during

The other half of the Natural Disasters is a fearsome, not to mention very heavy psychotic who enjoys throwing his weight about. In the game, the Natural Disasters are probably the most capable wrestlers around - their sheer weight and power makes them a good choice for beginners.

# **NEW GAME PREVIEW**

# **GRAPPLING MOVES**

loads of moves incorporated in the game. These range from simple moves like punches and kicks to piledrivers and suplex manoeuvres. Perhaps the most evil move is a powerful clothes line that propels your opponent out of the ring. As they lie on the floor stunned, you are free to climb up the turnbuckle and belly flop straight onto your opponent - ouch!

Hawk (of the Legion of Doom) completely annihilates the Million Dollar Man in some out-of-ring wrestling tomfoolery!

causing the Snake to finish him off with a flying leap!

# D JUSTIC

Justice is a powerhouse right up there with the likes of the Undertaker and Hulk Hogan. In fact, it was Sid Justice who unfairly deprived the Hulkster of his fifth deprived the Hulkster of his fifth WWF world championship title during January's Royal Rumble. However, in the game Sid Justice is pretty weak, only a bit better at grappling than the Million Dollar

Jake's best pal is a python roughly twelve feet long, which is one explanation for his moniker

Another reason is the fact that he's a pretty low-down, dirty wrestler. In the Super NES game, he's in a league with the Legion of Doom and the Undertaker, making him a good choice should you opt for the Survivor Series option

# UPER FAMICOM

# **NEW GAME PREVIEW**

# **RUMBLING ACTION**

Monday, January 20 saw the amazing WWF Royal Rumble lake place. In this astounding extravagenza, 30 WWF westlest competed for the title of undisputed WWF champion of the world. Two westlers started of the proceedings with one more combinant joining in every two minutes. All the versitiers had to do was charles each other out of the ring and the winner would show the combination of the combination of should be a supported to the start with the wast the title preson in the ring that's a WWF record, by the way). The situation should change in April, when Wrestlemanta VIII takes place. The immortal Hulk Hogan is challenging for the title.

# WRESTLING OPTIONS

Three different wrestling games have made their way into Super WWF Wrestlemania. All of them can be played with one or two players.

# **ONE-ON-ONE**

Each player chooses their favourite wrestler and battle is mell fin one-player mode, the computer chooses the worst enemy of the human player. So, if you choose the Undertaker, the computer is more than likely to select Hulk Hoga. Should you op for one half of the Legion of Doom, the chances are that your digital memsels will choose one of the Natural Disasters.

Each player picks out two wrestlers to take into the ring. Although two tag teams are included in the line-up (namely the Legion of Doom and the Natural Disasters), you are free to choose whatever combination of wrestlers you want. You could ever have the Macho Man Randy Savage and Jake The Snake" Roberts on the same team - and as any WWF fan will know, they hate each other's outs!

This is really just a glorified tag team event but the difference is that each player picks four wrestlers each! The game is played much like a tag event but when one wrestler is removed from the proceedings, another of the four take over. In the end, just one wrestler is left. His team are declared the winners!

Well known for his amazing sunglasses and colour co-ordinated fashion sense, the Macho Man reckons he's the best wrestler ever. Although he hates just about every other member of the WWF, he particularly despises Jake "The Snake" Roberts.

and four times world champion is known for his sheer power as well as his skill. Hulk Hogan refers to his massive biceps as his "pythons" for reasons best known to himself. Should you opt for the Hulkster in Super WUF Westlemania, you'll be controlling a swift participant whose recovery powers are unrivalled.

# A CRUSTY WIBBLER

VIBBLEM
Dear YOB.
Way back in July 1983, I received a Commodore VIC 20 for my 13th birthday and thought it was totally amazing. I had also seen the likes of the Atan 2600 VCS and various other video came systems that used to say "Playing games wor get you anywhere in life. When you're older you probably won't even play them anymore". Sounds familiar? How wrong could they bel My keen interest in computers led me to take a computer-related inb. I'm now a computer operator job. I'm now a computer operato operating IBM mainframe

equipment, so don't worry Mums and Dads if your kids spend hours chances are they'll turn out like me, maybe! When I'm old and grey my grandchildren won't be coming round to see Grandad, they'll be round to see Grandad, they'll be coming round to see Grandad's Darren Ward, High Wycombe, Bucks

# **WE'VE GOT** YOUR NUMBER

Dear MEAN YOB Dear MEAN YOB.

I am writing to complain about the lack of Satanism and Devil worship in MEAN MACHINES. It is a little known fact that Satanists, when they have linished running naked down the road wearing only a goat's head and daubing their bodies with cockerel's blood there s nothing better they like than sitting down and relaxing in fror

friend Hitler like better tha two-player game of John Madden's Football. My dad and grandmaster Theodolipolicus are very annoyed at the lack of Satanism in your brill mag. So if you don't buck your brill mag. So if you don't buck your ideas up me and my mates, Adolf, Attilia and Genghis will come round and poke you with our red forked tridents. So watch ou!! Dameon the Son of the Devi

YOB: Who needs Satanism when you've got Gary \*666 tattooed on his butt checks Harrod in the mag?

# **A CRETIN** FROM

Dear YOB.

My friend has told me two interesting facts which I would like you to clarify for me:

1. Is at true that Sony are making a handheid called the CONSOLE MAN?

2. Man like Suner NES been selected.

officially released in Wales?
Tim Stacey, Colchester, Essex
YOB: 1, No. 2, No, only in
Wrexham. It's on sale at Bright's
Electrical Emporium just off the
high street.

# WHAT'S HE ON?

A Bracey produced this I have a Megadrive and have been reading MEAN MACHINES since it's been published and I hink it's brilliant apart from one tiny flaw. This flaw is your review of long awaited games eg Sonic the Hedgehog have many criticisms in them that are good criticisms and all true. On the other

hajor games like Sonic.
Seeing your mega review these two excellent games, I bought them both. In your magazine you claim Mickey Mouse has challenge and is not easy to finish, I don't agree. I'm no master on the joystick but it only took me two weeks to finish Castle of illusion where as it took me a month and a half to

took me a month and a half to finish Sonic. also I found Sonic had more addictiveness and planability whereas Mickey Mo

playability whereas Mickey Mouse lost its challenge once finished. I agree with your review of Sonic but think Mickey Mouse was over rated if only by 5% Mark Laverick, Selby, N Yorkshire YOB: What you're forgetting is that Mickey Mouse came out that Mickey Mouse came out there was nothing like it graphics were the best seen at the time, and it was by far the best platform game o the

it so highly. Since then plenty of other platform games have been released, and by comparison Mickey Mouse doesn't look like such an amazing game. If it was released today, it would score about 90% or so.

# **DOES THIS** GUY "LOVE" HIS SEGA?

Dear YOB.

I don't want to ask any questions because I bet you won't print this letter anyway. What I want to say is that over the past few weeks I've been playing Streetl'ighter II on a three button arcade machine, and it's just as playable as the six button one. So I think when it comes out on the CD-BOM It will shove the over-rated Super NES

because loads of Megadrive owners will agree with me, and the Super NES owners will be green with envy now that the best beat 'em up will only be appearing on Segal's system. Also, Mario games are all the same, running around, going in pipes and collecting rings etc. No wonder the Super NES isn't doing so well in the States, the

YOB: Talk about a comedy of
errors. You should put your
brain in gear before putting your
brain in gear before putting your
ranting and raving nappies on.
First of all, you must be a
completely crap Streetfighter III
player If you think that playing
with three buttons is alright. You
Do need all sit in be any nood. DO need all six to be any good at the game. Doh! Secondly, Street Fighter II IS going to appear on Super NES. Nothing has been heard of the Megadrive version since the Super NES version was

super NES version was announced - we're still hunting down news on the subject, so don't count your chickens. And thirdly, I think you might be a bit rash in your Mario criticism. Mario might go down pipes, but AND goes down pipes is a certain blue hedgehog. Time to bum off, baboon boy!

#### **GET STUFFED** Dear YOB,

Tarron S and Robbie S, Midlothian, Scotland YOB:

Thanks to Graham Mann and

Gavin Rothery

confirmed launch date and I'd fee like a complete dork. So when do you reckon the Super NES will be

here?
S Trivedi, Kenton, Middx
YOB: There have been lots of esteemed editor states that the official UK Super NES will be the same shape as the Japanese machine and will appear in very late March/early April.

# WHAT?

l enjoy your games and I have decided to write you. My reason for writing is to ask you to send me your MEAN MACHINES price list, check list and catalogue. If Okoro Kelechi, Imo State University, Nigeria YOB: Eh?

in teletext - they stated that the Super NES would be launched in

WHO'S RIGHT? Dear YOB Dear YOB.

I am writing this letter regarding all the controversy that has been generated over the past month concerning the official launch of the Super NES. Every magazine seems to agree upon is trait the release is set for Spring - and that's where the road ends. CVG were very optimistic, with the Super NES being launched as early as February. MEAN MACHINES claim March. Bandai says a definite June release, whereas Club Nintendo says May, Games-X state April as the date. All we need is someone to con-

25 MEAN MACHINES

# SPAZ OF THE MONTH

Dear YOB Dear YOB.

I've just got to say your magazine is pathetic. I don't like the quality of paper, you don't get a clear look at the graphics and I hate the way the reviews are presented. Why don't you give the good and bad points of sound presentation etc. Which is a shame because the mag could be brilliant with a few adjustments. Also I think you look like a little twerp I'm sure you could look a lot better

Damian Williams, Penmachno, Gwynedd, Wales

YOB: You think the magazine is pathetic, but you still bought it. You're more stupid than a mad cow with mad cow's disease.

### IT'S ALL 'ARMLESS FUN

Dear YOB.

which you keep printing. I was deeply shocked when I read them

Iney are in such bad taste.

Barnie, Marnie and Arnie
YOB: So, like the leper, when
your eye fell on the page, you
didn't laugh your head off then?
If I was you I'd go and have a
leper's night out - get legiess
and play cards so at the end of
the evening you can throw your. the evening you can throw your hand in.

#### GOING, GOING, GONE

Dear YOB. I was looking at some old console mags the other day and I found an

Entertainment Guide).

Well I flicked through it I found a hand held machine called a Gamate. I have enclosed a pic and the question is what happened to

Luke Northway, Kings Kerswell,

YOB: Like the festering scab it is, it hung around for a few months, but then disappeared without a trace. The same could be said for CGEG.

**MAKE YOUR** OWN MIND UP

Dear MEAN YOB, I own an Arniga and at Christmas I bought a Megadrive and I think it's brill. When I went back to school my friend told me about how good the Super NES is. I think it's brill as well because it has my all-time fave game Street Fighter 2. Now I don't know what to do, should I sell patronage...

the Amiga and the Megadrive and get the Super NES or sell just the Amiga or Megadrive. Please print this letter because I'm desperate David Johnston, N Ireland

YOB: Sell the lot and send the cash to me, that's the best thing

#### OOPS! Dear YOB

I don't want to sound like I in complaining, but you kinda printed the wrong name on my picture I sent in (Mario vs Sonic), it's the fact that my mates believe me not that I sent it in and I can picture

Inis month. Well traints to printing it anyway.

Rob Pierce. Salisbury, Willishire
YOB: Gary Harrod made the dreadful mistake, and suggested as way of punishment that we send him up the road to Pert Pam's Pervy.

friend, you see he owns an Amiga that the Amiga has better graphics than the Megadrive. Please will than the negacive. Please important the negacive problem, because it's been going on for six months. I'd be much obliged. Brian Linehan, Limerick, Ireland YOB: Tell your friend to go suck a bull's udder and tell your Mum you'll do the washing up for a work if she'll let you hum MEAN. MACHINES, or do poos in the

washing basket if she doesn't.

### JUST WHO DO YOU BELIEVE

Dear 1709.

I own a Megadrive and I'm planning to upgrade to a Super Nintendo when they are officially released. BUT I was reading a latter to Sens Power that the released BUT I was reading a letter in Sega Power that the Super Nintendo is poor compared to Megadrive games. It even said Sonic is better than Mario IV (is this true?). The writer of this letter said he owned a Super INES for three months. This mag's reply was that other mags that review Super INES games (meaning you!) are biased towards if (hard to believe is in 17 and that is with the true as I am dying to know and if you do not print this letter I will personally come round and decapitate you with a large meat

cleaver.

D Boucher, Morden, Surrey

YOB: None of the guys here are
biased towards any machine,
and the fact that Jaz, Rich, Rad, Gaz and Oz all have both a Megadrive and Super NES at

sad, gibbering baboon's ass of a nincompoop would say that Sonic is better than Mario IV. And anyway, would you believe anything written about Nintendo in a Sega-only mag?

### MYSTIC YOB

He's put on his Gypsy bandana to whose letters have gone to the might just have some special psychic (or should that be psychiatric) ramblings just for you.

Michael Webb of Cheadle: We never print your letters because they're not very good. Mr Australia: Yes there is. Adam Lane of Telford: Your joypad is broken, take it back to

Leighton Wilson of Bristol: You are obviously some kind of gullible

retard.
Julian Roche of Altrincham:
You're a very moany
over-opinionated git, but your
writing style is excellent. Jaz
remembers your letters from way
back. Perhaps you should attempt
to enter the field of computer
journalism? Send a sample review
to bin if you're interested. journaism? Send a sample review to him if you're interested. P Scatter-Cushion of Barnsley: Yes, very lunny. Try something shorter and slightly less crap next time and it might be printed. Asterix of Cardiff: Are you blind as well as stupid? Leo and Snefell of Scotland: Oh

Leo and Shetell of Scotland: Oldear, you are having problems.

Seek psychiatric help.

Myles Fitzgerald: Rad wants to know whether Gerald fits you?

Dear Jazza,

Will ya' a answer these questions?

1. will there be a sonic 2
released on megadrive.

will ya' need a cdtv to 'av' sonic 2.

whats ya' favourite platform game.

4. av' ya' got a date for sonic 2 for Aussie and Aberdeen. Thomas Bailey-smith, Tasmania, Australia (envelope postmarked Aberdeen)

JAZ: No. Firstly you didn't say please, and secondly you have the writing abilities of a demented festering beboon's ass of a moronic imbecile. And I bet you sniff kangaroo's dangly bits.

## SCRAPINGS

Dear Jaz,

This coming Easter holiday, my family and I are going to Hong Kong. Please could you answer the following questions for me as it is incredibly important that I know the answers before I go.

How much would the following items cost - Super Famicom, Mega-CD, Turbo Express?

2. Would I need them converted for use in the UK, and if so how much would this set me back?

3. Thirdly, do you know what the duly would be on these items? Jon Izzard, Epping, Essar JAZ: 1. All between 25%-75%, less than you'd pay here. 2. Possibly - you'd have to ask the relative what format the expensive to a

#### **FEATURES**

Dear Jaz.

Could you please answer these questions about the Megadrive?

1. When will Super Kick Off be released and will EA be making a footie game?

2. I've recently seen a game called Art Alive by Sega. Do you know if it's any good, and if Electronic Arts will be making an art program?

3. I've heard EA are making four other games including Lakers vs Celtics 2. Do you know what the other titles are? Jonathan Ryans, Doncaster, Yorks

JAZ: 1. December. EA haven't got a football game in the pipeline at the moment. 2. To be honest, console art programs are a bit redundant, and as far as I know EA aren't working on one, 3. Yes, but I'm sworn to secrecy.

### **ADAMS**

Dear Jaz,
I own a Master System and soon a
Megadrive. Please could you
answer these few questions:

When I get my Megadrive, am I better off getting an official UK one or a Japanese import?
 I've heard that some import Megadrives are very unreliable and are not worth touching with a ten foot barge pole - is this true?

3. Will any of the gang be appearing on GamesMaster again? William Barker, Bradford, West Yorkshire JAZ: 1. Check out the prices and

JAZ: 1. Check out the prices and guarantees and make the choice yourself. 2. Not that I know of, 3. I'm on six of the thirteen shows and Rad is on three - write to Gamesmaster and tell 'em you want to see more of us (that's assuming you do and don't want to see other knobby dillons on there).

BAG the te Engli 5.

ar Jaz.
wn a Japanese Sega Megadrive
I I was wondering Does the English version of
Madden's footy crash
way through the game?

halfway through the game?

the text on a Japanese game b English?

an English game does the text
ve\_come up in Japanese?
6. Can I buy the official version
for Rolling Thunder 2 or will I have

Lee Carter, London
JAZ: 1. No. 2. No. 3. No. 4. Onl
if the game contains both
Japanese and English text. 5.
Because the cartridge thinks

SHAVER

Hey Jaz,

Think you're a smartass?

Answer these...

1. If the Mega-CD and SNES

- were pushed to their extreme limits which one would come out looking and sounding the best on a game?
- Will an American SNES play Japanese and Aussie carts?
   How much do SNES games
- How much do SNES games cost in Japan and America?
   Hill buy a SCART SNES will it.
- play PAL games?
  5. I am a patient guy and want the best quality, so which one is best, a Japanese SNES (SCART), the American SNES (SCART) or should I just wait for the official release of the Aussie SNES in
- 1993 Christmas?
  6. I want a magnifier and a light for my Gameboy, which is better quality, the two separate or the two
- quality, the two separate or the two built together?
  7. Could you plee-ease for an Aussie guy produce issues 1-9 of your super mag, cause MEAN
- MACHINES started selling from issue ten in Australia and I missed out!!! It's a tragedy...

  Tony Liodakis, Burwood, Sydney,
- Australia

  JAZ: First of all, I don't think I'm
  a smartass I know I'm a
  smartass, you koala groper. 1.
  The Mega-CD would sound
  better, but the Super NES would

look better. 2. Yes. 3. About £30. 4. Yes. 5. It's up to you. 6. I'd get both together. 7. We've been selling in Australia since issue one - you obviously missed it.

# FARTS

Dear Jaz.

I am none other than a proud owner of a Megadrive and was desperately hoping that you

desperately hoping that you answer these questions for me? 1. In issue 101 of CVG, you that

- there was a device which lets Megadrive owners download Amiga software to their Megadrive is this true?
- Is Aliens 3 going to be coming out on the CD-ROM or the Megadrive?
- 3. I've heard rumours that a Judge Dredd game is coming out on the Menadrive, is this true?
- on the Megadrive, is this true?

  4. How much does it cost to subscribe for a year from East
- Germany? I wish to subscribe immediately and would be grateful for full details as soon as possible. Nicholas O'Conner, Rostock, Germany

  JAZ: 1. Spaz alert! Spaz alert!

That was an April fool cooked up by good of me, and you fell for it like the fascist you are! Doh! 2. Megadive. 3. No. 4. We're currently working on a new subs ad - keep watching.

#### FEELER

Yo Julesy my man, I'm back, and I've got some

steaming red-hot questions about the SNES that I'm getting (hopefully) that just must simply be answered or I'll stain my pants. So here are the questions.

1. When the SNES systems

come out in England will they be PAL, SCART or both?

2. I'm not quite sure but I have been told that for a SCART machine you need a special type of monitor to plug it in to and a PAL machine you can plug into any TV set, is this true?

3. If it is true, if I used a SCART and on a PAL SNES then would I

be able to plug it into any TV set?

4. Would I be able to play
Japanese games on a SNES
without a convertor?

5. What are PAL Famicoms generally more expensive than SCART Famicoms? Is it because there are less of them than of SCART Famicoms?

Daniel R. London

JAZ: 1. You'll be able to connect
the official machines up both
ways. 2. Yes - unless your telly
is a dead posh one with a
SCART socket. 3. Yes. 4. No. 5.
No, it's because the PAL
modifications are tricky and

expensive and SCART modifications are cheap and simple.

HAIR

or a change I think you should nswer some questions on the ame Gear. As I have just urchased a GG I have noticed th ck of coverage in your mag. 1. Do you know if any beat 'em

onths for the GG?

2. Have you heard about any
ew GG add-ons? I've heard ther

3. Is it likely that there will be a Sonic 2 on the Game Gear? an Williams, Lower Earley.

lan Williams, Los Reading JAZ: 1. Ninja G

the best one I ve seen recently.

There are a variety of boxes and magnifiers, as well as a TV adaptor, two-player link-up lead and a car lighter power adaptor out and about as we speak. 3. Yes.

MEAN MACHINES 32

## JUICE

Dear Jaz,

I am writing to you to beg for to answer some simple questions.

1. When the CD-ROM for the Megadrive is released will this make the Megadrive capable of

producing good quality filled polygon graphics? 2. I have a Megadrive with eleven games. If you were me, other words which would you choose if you wanted the best games machine? 3. Please could you tell me

which of these is the best for games (as in performance) IBM PS/1, Amstrad PC5286?

4. Is Streets of Rage better than any Amiga beat 'em up? Jonathan Carter, Totnes, Devon JAZ: 1. No. 2. No way! I'd keep my Megadrive - it's the best machine. 3. The IBM - as long as it's got a VGA card, 4, Yep.

## RELATED **FROLICS**

Dear Jaz.

I have recently bought EA Ice Hockey and my friend has bought NHL Ice Hockey which are both made by Electronic Arts, but my friends is considerably slower than mine. Is this a fault in one of our carts or is this right?

James Carter, Sawston, Cambs JAZ: I should imagine that you have a SCART machine and your chum has a PAL machine PAL machines run about 15% slower than SCART machines.

### PADS Dear Jaz.

I was wondering if you could please, please answer this list of questions.

1. Is there a colour modulator coming out for the Gameboy?

2. If so when will it be out? 3. How much will it cost?

4. When is Lemmings and Kick Off coming out for the Gameboy? 5. Is an Addams Family game

6. Is there going to another WWF game for the Gameboy and is there going to be a Battletoads

7. Is there going to be a pink Gameboy called the Gamegirl? Simon Dukes, Malvern, Worcs JAZ: 1. No. 2. Never. 3. Nothing, because it doesn't exist. 4+5. Within the next few months. 6. Yes. 7: No, don't be stupid

Wahey! Here we go, with yet another exciting tips-related fest of gigantic proportions. Crammed to the max with amazing tips, cheats, codes and all manner of massive specials, there's quaranteed to be something here that should tickle your proverbial fancy. If you reckon you can do better, send off your stuff to MEAN MACHINES TIPS. MEAN MACHINES, Priory Court, 30-32 Farringdon Lane, London EC1R 3AU. There's £150 worth of amazing software waiting for person who sends in the best tips of the month.

About lifty-eight of you lot sent in this Devil Crash tip, to I suppose I di better print II. habor I I Yeel, II. Si pricily implies. Either ECHNOSOFT on the highlacore Balle pricily and the print of the print

# GADRIV

This game is definitely the finest Ballistic release out on the Megadrive at the moment, and Colin Hand came up with this "Hand-y" tip for powering up your ships to undreamt of levels. Put the game into FULL GAME

mode and choose your desired scenario. Now for the cunning bit. When the information describing the scenario appears, hold the joypad DOWN and LEFT and hold down B. Keep them all held until the star map appears.

Now, every unexplored (blue) star will house a precursor relic! Amazing, huh?

9 + D

The mysteriously named R Robinson (amongst others) sent in this tip to make the original mode in Mercs a lot harder! Just choose inal mode and press A, B, C and START simultaneously

Ian Toska reckons himself to be pretty well-endowed in the games playing skills department. To prove it, he's sent in loads of codes for Joe Montana II.

# NOW THE POWER 2 FIGHT BACK...

#### ACTION REPLAY CARTRIDGE YOU CAN NOW PLAY YOUR FAVOURITE MEGADRIVE GAMES TO DESTRUCTION

Just imagine, infinite lives, unlimited energy, unlimited power or extra fuel/ammo. Become invincible with the Action Replay Cartridge for your 16 bit

MEGADRIVE console. Very simple to use - just enter the parameter code for the game that you are playing and that's it. Now you can play games to levels you didn't even know existed Action Replay is a powerful cartridge featuring its own on-board LSI chip specially designed to allow the user to effectively "re-program" their games cartridges so they

can play their favourite games to destruction!

Full instruction manual gives you the parameters for most of the latest games plus many of the older favourites. We give you simple, easy to use inputs to get more or infinite lives, more fuel, more energy, cheats, etc. etc. with your favourite MEGADRIVE games. With its advanced ASIC hardware design the Action Replay cartridge can react to

new games as they appear -the latest parameters are published FREE monthly in SEGA PRO magazine. No user knowledge is required at all

-if you can play the game you already know how to use Action Replay. All input is via the joystick/pad -it couldn't be simpler. Also works as an adaptor for Japanese

type cartridges. (worth up to £20)

Comes with loads of ready made cheats

the standard version plus many more!

for most of your favourite games just like

FIND AND CREATE YOUR OWN PARAMETERS LIVES, POWER, ENERGY, LEVELS ETC.

Easy to use-menu selections throughout

This is the cartridge the experts use... the average cheat takes only minutes

### MEGADRIVE

# **OUACKSHOT**

As promised last issue, here are the tips required to successfully annihilate the end-of-level bosses in Donald Duck: Quackshot, I've left out the details on defeating the last boss - I don't want to ruin the entire game for you. Thanks go to ussell Warren of Cheltenham

### DRACULA

Dracula is pretty easy. Use pop-corn on this spectral guardian but remember that using the plunger yields the best results. He can only be hit when he opens his

### THE TIGER

The only way to teach this tiger a lesson is to remain roughly in the middle, moving if necessary and using bubble gum on the feline marauder. As bubble gum doesn't move that quickly, the best thing to do is to fire it towards the tiger's landing place when he leaps. Remember that the tiger sits down before breathing fire

### THE VIKING GHOST Before he throws his axe, jump

and plunger him in the head. He by burger him in the flead. He ls to pieces after this, making n easier to defeat as he leaps er you. As the last part of his body clears your head, jump ourself. By the time you're on the

the other side. He follows. Just before he reaches you, slide across back to the cave. This gives you time to plunger him. jump to the top level, get him again and run around in circles, eluding the evil one. If you're in trouble, go back to safety and repeat the

Adam Frampton and Kingsley Walesby from Kingsto in Surrey sent in a veritable bonanza of groovy tips for this topping space exploration game.

First of all, for a sound test, hold down A and B when you're standing outside the various doors in the spaceport.

### LOG THOSE PLANETS

Logging planets is a good way to make plenty of cash. Here's a list of planets that earn you plenty o' dough should you choose to log them.

System 118,146 - planet four, System 175,94 - planet one.

System 145,107 - planet four. System 215,86 - planet three. System 217,88 - planets two and four.

System 129,33 - planet two. System 125,100 - planet three.

### FINISHING THE GAME

Follow this plan to completely finish the game. First of all, you'll need the Crystal Orb (132,165 - planet one. 46N x 12E), the Crystal Cone (20,198 - planet one. 29S x 55W) and a Crystal Egg (234,20 - planet two, 35S x 99E)

Now go to the Crystal Planet, located at 192,152. Locate the planet's nexus with the Crystal Cone (if you've forgotten it, try 47E x 48N). Now just drop off the Black Egg and take off. That's it!

### Dispose of his two minions with

bubble gum or popcorn. Then, Pete gets out his machinery (!!!) so retreat into one of the cave-type things one of his minions sorung

## Neil Baker from Hampshire sent in a fascinating letter

about his Megadrive Alien Storm-related lapery. He reckons that for the final level, you should just choose the far-left passages every time. Now you should only have to clear three passages to face the Alien Brain at the end.

Also, I've had a worryingly large amount of mail detailing how to become invincible. Apparently, you should choose Scooter and as you're about to die with your last life, self-destruct. Invulnerability should now be yours.

### **FAMICOM**

## TIPS

Castlevania IV ranks as one of the best Super NES platform games going, with gorgeous graphics, tough gameplay and super sound. Discovering that he'd actually run out of work to do, Gary Harrod decided to devise this awesome Castlevania Player's Guide. Enjoy!

▲ Making good use of both the whip and the special weapon is the key to success here.

▲ Watch out for Dracula's awesome lightning bolts - and fire boomerangs at his head.

### CURIOUS CODES

Check out these amazing Castlevania passcodes! These are the best possible passwords for each level. Using these, you should have no problem getting to the final boss, Draculal Just don't enter any name on the Password Screen that's all!

▲ Use all six blocks and stay out of reach of this spectral demon. Use both your whip and special weapon.

### **FAMICOM**

## TIPS .

Located on the penultimate level of Castlevania IV is a secret room where power-ups and hearts literally fall from the skies! Not surprisingly, this makes completing the game a doddle.

- Walk to the very edge of this ledge and jump straight out into the unknown!
   You'll land here. Now just walk left, down an
- invisible staircase.
  3. Power-ups aplenty fall from the skies! Collect 99
- Power-ups aplenty fall from the skies! Collect 9 learts, a triple boomerang and the best whip.
- Retrace your steps to this point and jump back to the visible ledge, but be careful of the edge.

▲ The best tactic here is to remain at this position.

Keep your wits about you when he hits the ground!

### SECRET ROOM SHENANIGANS

There are plenty of hidden rooms in Castlevania IV, each boasting a veritable explosion of useful power-ups and hearts. Examine these screenshots.

'1. During level 3-1, look out for these blocks. Whip them with all your might and a secret passage should be unveiled!

The second secret room is in level 6-2. Use the whip on the block beneath your feet to reveal a secret staircase!

Level 9-2 contains the last secret room. As you step on the block at the top-right, next to the coffin, you're instantly warped!

FFFFFSSJOJU

LEVEL 5007: ALPINPIL LEVEL 5012: SHADIKEOUT LEVEL 5021: FUTINBAR LEVEL 5026: **JOSIKELUG** LEVEL 5031:

KILLOPORD LEVEL 5034:

"Dear Tips." writes Chris Hare from South Clifton. "On Sonic the Hedgehog on the Master System there are several lives hidden. Once level one, act three, there is a life down the second hole, and a spring to get you back up. Also, on level two, act three, go left at the beginning to find an extra life. Finally, there is a life on level three, act three, Just go in the water to find the extra life "

So, there you have it. Chris also sent details of how to get the Chaos Emerald on level three, act one. First of all, go past the Emerald and when you get to the next waterfall, keep going down. There will be a platform to the left. Jump on it and there will be a log ready. Now you can just roll all of the way towards the Emerald

rutinise the tips special ven

### TATOOINE

On the landspeeder level of Star Wars, there are only three destinations that are worth visiting On the top left of the map, you'll find the Jawa Sandcrawler, where R2-D2 is held prisoner. One of the caves to the top right of the map has Ben Kenobi inside ready and waiting. After you've visited him (be sure to have R2 with you or you can't recruit him at all) travel towards the bottom right to enter Mos Eisley. Only bother entering

# the Asteroid Field stage and need

other caves if you're hopeless at

more shields.

Remember to pick up Han Solo at the beginning of the level. For the most part, use Luke Skywalker to progress. His Light Sabre is good for defending against laser bolts, and one good cleave annihilates every enemy sprite instantly! When you get to the point where a pipe blocks your jumping, use Han to blow away the deadly bounty hunter at the end

This scrolling stage is very difficult.

The Asteroid Field is very dangerous. Never stay still or move in one direction for too long or the lethal rocks are sure to claim you as their victim. You should begin to notice that the asteroids come at you in "waves" which all have a safe position to fly through. Keep looking for this safe point or it's good night Vienna

# THE TRACTOR

The aim of the first section of the Death Star is to take out the Tractor Beam. By hooking R2 to the computer network, you should have no trouble finding the right room. Switch to Han and climb the ladders, shooting at the beam generator. With Solo's powerful weapon, it shouldn't be too long before the Tractor Beam is history

This arduous task is the next on your agenda. Both Leia and the exit to the next part of the Death Star are right next to each other in terms of geography, but the wall between them means that two completely separate routes are required. Both targets are found on. the bottom right of the map. Use this map to plan your route carefully. You can try to just blunder your way through by trial and error but the chances are, you'll find the exit first and once you've gone through it, you can't

### THE TRASH MONSTER

जास —

After negotiating the trickiest platform puzzles in the game, you end up in the Trash Compactor. The trash monster is feeling rather hungry and his tentacled form ends up attacking you viciously. The best tactic here is to climb as high as possible on the platform environment, change to Han and shoot the monster in the face. Only one good hit is required in order to save the day.

### DOGFIGHT

After escaping from the Death State, the Millenium Falcon is attacked by legions of TIE flighters. The top priority here is to stop yourself from being fired by the laser bolts screaming towards your hult. Use the same Asteroid although you can be a bit more violent with your movements. There should also be some convenient split-seconds where you can get a few shots in a sew the Practice your marksmanship and be sure to make those shots.

The excitement reaches fever-pitch as Han and Luke take on the TIEs

Grimsby sent in these tips for Shadow Warrior, aka Ninja Gaiden! They should help you with dealing with don't, well, there's not much we can do about it, is

there?
The best weapon to have here is the Windmill Star. Walk up to the boss and when he swings his sword, duck down and slice his legs.

### **LEVEL TWO: BOMBERHEAD**

Keep hold of your Windmill Star for this level - you're going to need. Walk up to him and wait for him to spin his mace (and his chin) then bend down and chop his

### LEVEL THREE: BASAQUER

The best weapons to have handy here are the Windmill Star and the Throwing Star. Wait until he lands on the floor (keep to the left of the screen) then stice his legs away. Save your throwing stars for the little balls he fires at you.

### LEVEL FOUR: KELBEROSS

Once more, the Windmill Star is the best weapon to post. Sometimes, if you kill the wrong one, two more enemies spring up, so be careful.

### LEVEL FIVE: MALTH

Keeping your Throwing Stars and Windmill Stars handy for the boss is the best advice here. Get as him. Follow this up by chopping his legs away

### LEVEL SIX: YOUR DAD (!)

Filial love reaches an all-time low here as your Dad, transformed into the devil, seeks to dust your primate-related posterior. Your best bet is to get hold of the Fire Wheel. Now, on the wall there is a face with of the Pire Wheen, Now, of the wash there is a massive red nose. Stand near it and just keep firing at it. Sounds easy, eh? Well, it's not because your dad throws fireballs at you! So keep your best dodging trousers well-ironed and ready for action.

### **GAMEBO**

### WHO FRAMED ROGER RABBIT?

Simon Garwood from Ipswich saw fit to send in tons of Roger Rabbit hints 'n' tips, along with the following set of passwords. Take away, Simes!

SCENE TWO: **DLT3QYBY** SCENE THREE: **GPLDMSRC** SCENE FOUR: **MMCFGWXJ** SCENE FIVE: **BGQTVKJP** SCENE SIX: RTJBWN43

Once you've arrived at Doom's mansion, things start to get a bit hairy, so it's a good thing Simon included these tips.

Ignore Eddie Valiant as he is spinning his chin - he doesn't leave a trail at all! Put on the speedy shoes and enter the room ahead. Quickly go left as there is a robot dog to avoid. Once past him, there is a room full of dip puddles. Take the door on the right and then the one on the left

In the room with two flights of stairs, take the ones to the right, go through this new room and knock out the two weasels. Go down the stairs, knock out three more weasels and go down the stairs in the bottom right-hand corner to meet Doom! He runs off. so follow him to the next room. being careful to keep to the sides (and thus avoid a massive trandoor!).

This shoot 'em up may be a tad cacky and incredible easy to complete but if for some strange reason you want to cheat on it, read on.

### **FAMICOM**

Available as an import Super Famicom title, Legend of Zelda III: A Link to the Past is THE best 16-bit adventure game money can buy! Unfortunately, a lot of the game has Japanese text. making some parts of the game very difficult. MEAN MACHINES comes to the rescue!

At the MEAN MACHINES offices. we've had plenty of perplexed Zelda players phoning up begging for advice. We don't give out tips over the phone, so here are the answers to the most common queries.

forest?

You MUST collect all three
amulets before making your way to
the forest. Only then can you
collect the sword.

How do you get the amulet in the mountains? Once you have the gauntet you should have no trouble getting to the mountainside. Find the portal that warps you to the evil dimension and move near to the two creatures to the left. Stand on one of the two clearings and use the mirror.

A LINK T

SHIELD: The third shield you t

GAUNTLETS: These enable you FINS: These let you swim in any

In the castle, how do you defea the boss that kidnaps Princess Zelda 2 Zelda?

Not even your powerful sword is good enough to send him packing What you need to do is swipe at the sphere-like shots he fires at you to reflect them back at him. Watch out for when he moves to the top-middle of the room, or he'll fry you with lightning!

# MEGADRIVE REVIEW

an you perform a twist-plant aerial kick tail? We seriously doubt it, because we just made that up. Still, you too can confuse your friends by spouling any old rubbish and passing it off as "Californian" with the help of California Games by Epyx.

This game puls you in control of a team of five hip beach-types on that the beach This is done by coming beach-types and like beach This is done by coming out tops in five unmistakably West Coast events.

namely skateboarding, surfing, lookbagging, skaling and BMX. What's more; I you puls reckon they're much iller and skiller than you, why not simply challenge up to eight of them at once in a mega-contest?

### PIPE SMOKING

The first event you come to is the half-pipe. Here, points are scored depending upon the number and complexity of stunts you pull off. For minor points and low risk factor, kick turns and track-changes are best. Real threathers who go for lotas points (and certain death) will be looking for their dose of hand plant inverts and aerial turns.

### \*\*\*

### GIVE US A

Despite the fact that no one else in the rest of the world would be seen dead anywhere near a BMX, it must still be really popular in California or BMX would never have become the final event of California Games. In this event, your pixellated pal is capable of some pretty neat tricks, such as spinning his bike around in mid air or performing the equivalent of a bike-bound somersault. Needless to say, moves like these certainly boost the pointometer, although that doesn't mean a bean if you don't complete the course.

### **MEGADRIVE**

Wahey! Become a foxy chick in the penultimate evroller skating. You have less than two minutes to skate to the end of a beach boardwalk littered with hazards in the forms of banana skins, pavement cracks, flying beach balls and even people skating in opposite direction. Use your skating prowess ar ng abilities to make it to the finish

The most sedate event is easily the footbag. What of could be simpler than bouncing a small bean bag off various parts of your body? Outle a lot, as it happens. Once again, the more complex the move, the greater the rewards. So just bouncing it off your loot forever does no good. Instead, by reverse dodas, Dizzy Deans and the tlabb offul ade, achieved by kicking the ball twice whilst spinning around!

of all, surfing, is event number three. Before you set foot in the water you have to choose a board. "Light" makes stunts easier but yields fewer points, "regular" is a standard board, but real hards opt for "turbo". This gives you a real turn of speed and allows some hugely tricky stunts to be performed. Unfortunately, it also increases your chances of wiping

# MEGADRIVE

California Games might have bee

pily, lo fact, this Megadrive victoria is a victoria to the best of the lot, featuring colourful graphics, incredible animalian and smooth, fast gameplay. The sound is a bit of a letdown - it is not bad, but the tunes don't fit the action very well. Still, the playability is what counts, and California Games has lots of this. Each event takes some time to master, which is just as well because unless you've got some pals to hand, you have to challenge yourself. It would be better if there were a competitive one-player game, but even without It, California Games is good enough

JULIAN tour-de-force with superbly animated sprites and splendid backdrops, and it plays like a dream. Each event is a brilliant mini-game in its chiloyable, addictive and challenging enough to make it a priority purchase.

### MASTER SYSTEM AND **NINTENDO TOO!**

as of the game available for their mach red a massive 93% and on the Nintendo the ga red an impressive 91% when we reviewed it in

GAME DIFFICULTY: MEDIUM LIVES: N/A CONTINUES: N/A Skill Levels: 1 RESPONSIVENESS: EXCELLENT

Loadsa options to choose from and flawless in-game presentation.

Colourful sprites with top-notch animation over expansive, super smooth scrolling animated backgrounds.

The effects are pretty good and so are the tunes - the problem is that they don't suit the action very well.

Fast and furious gameplay which is easy to get into but takes quite some time to fully master

In multi-player mode, this is one your mates will be asking you to get out time and time again

California Games is a hugely entertaining, fun-packed multi-event sports game which should be checked

## COUNTDOWN TO DOOMSDAY

The universe of the twenty-fifth century is a place

The universe of the twenty-lith century is a place fraught with danger for mankind. However, one man is destined to rise through the many disasters and deadly invasions to survey, expose and lead humanity to a brave new dawn of civilisation. Unfortunetely, you are not that man. You are in fact in command of a party of understudies for the man known as Buck Rogers, performing dangerous missions in the name of freedom in this new role playing game from Electronic Afts.

You play a party of new recruits into NEO. an organisation deviced to riding the galaxy of the last vestiges of the mega-powerful RAM faction. These hersteld beings are the previous system with entire the solar system who enforced their ron-fisted law with genetic mutant warrors! Your first mission sees you repelling a minor invasion of mutant Terrines at your residency and the properties of the properties of the properties of the properties. The seed of the properties of the

The small, evil creatures gang up your crew members. Watch it!

MEAN MACHINES 52

### SHIP-TO-SHIP TOMFOOLER

Ship-based combat is fought in much the same way as its ground-based cousin. As each character comes into play, their actions are selected using a cursor. Should you wish to fight, you select which weapon to fire trom a choice of K-cannon, missiles or beam lasers, which are

aplenty!

then aimed at the unfortunate enemy ship pictured in your scanners. If this approach seems a little warlike, you can always try talking to your enemies. The trouble is, all this softie approach tends to yield nothing more than severe laser burns.

### MEGADRIVE

# REVIEW 🕮

### T'S AN EDUCATION

As your characters progress through their escapades, they learn new hings. This is represented in Buck. Rogers through the acquisition of experience points. These are awarded for solving puzzles, winning in combat and acting heroically in desperate situations. Each time one of your characters gains a certain number of these points they go up a terel, which bestows new advantages upon them, such as weapon lonnasses and new skills,

### EXC

### EXCITING CUMBAT

Combatin Buck Regars is a little more involved than in most IRPGA. The process is consistent with the involved than in most IRPGA. The process is consistent with an extra desired that the control in turn. Once you take charge you may elect for your person to move around, attack, wall, carry out first ad on your fellows or pass completely. Alternatively, you could just leave combat to the computer using the "quick combat" option where each member of your party acts in the best interest of her member of your party acts in the best interest of the member of your party acts in the best interest of the member of your party acts in the best interest of the member of your party acts in the best interest of the member of your party acts in the best interest of the member of your party acts in the second party of the process of the second party of the process of the party of the party

The fight moves to the entrance of level one's base complex.

Things look bad as your crew drop like files in the battle.

Terrines close in on your gang, anxious to finish them off!

### MEGADRIVE

space warriors. Before embarking on your adventures you may choose to take either the pre-generated computer party or create your own. Six major statistics are used as guidelines to your

characters' abilities. These are strength, dexterity, constitution, charisma and technical ability. Then, a race is selected from Human, Desert Runner (a genetic hybrid of man and animal) and Tinkers (a cross between humans and gibbons who make excellent medics!). On top of this a character class must be chosen for each character. The classes dictate each person's ability in certain fields. The four available are Warrior (an. all-purpose fighting character), Rocket Jock (a Han Solo-type pilot/adventurer). Rogue (a stealthy criminal type) and Medic (essential healer). After this is done, points are allocated to specific skills such as demolition, zero-gravity manneuvres and computer programming. When you think you've got enough heroes, name the lot of them and off you go.

### COMMENT

Like Starflight, this certainly takes a lot of getting in to. Creating your characters is a long and boring task which does not bode well for the game itself. However, give the cares a choice and your goal halo. this game issuer however, you can't help but get drawn into it. Days, so the graphics look spartan to key he least, but did down and the sheer was the state of the sheer with the sheer was the sheer with the sheer was the sheet was the shee

completing the first few levels takes a few hours to accomplish, and there are plenty more where that came from! I can see action-drans not getting on very well with this, but if you want a cart that offers an enjoyable, long-lasting challenge, give

At first play, Buck Rogers Although the character creation is quite fun, making six

RADimplistic. The weak graph ind sound do nothing b neighten the despondent atmosphere. Get past these small hurdles however and you'll find an involving and you'll find an involving and rewarding game. There's lots to do in each of the subsequent missions, with clues being sought and a real sense of tension as time starts to run out and there's still an objective to be achieved. The combat system can be slightly annovine, although it's ten annoying, although it's ten limes better than any other RPG system, and you can always stick to quick combat in system, any gou can many astick to quick combat in less-than-desperate situations. Size is another thing Buck Rogers has going for it. There are loads of assignments and they get very hard after the first couple of missions, making the battery back-up essential. Buck Rogers is definitely one for anyone after some RPG excitement or just a

The missions you are assigned are certainly varied. Level one sees you saving the NEO base from an enemy missile-launch attempt, whereas later levels see you rescuing kidnapped children, saving the databanks of an abandoned ship while at the same time seeking a cure for the deadly parasites which have infected you and even helping Buck Rogers himself defeat an evil pirate king!

GAME DIFFICULTY: HARD CONTINUES: SAVED GAMES SKILL LEVELS:

Lots of presentation screens and they're quite well done, too.

Small and weedy sprites with little animation. The backgrounds are quite repetitive too.

The tune is empty and the effects are as poor as poor can be.

The control system makes things easy and there's certainly a lot to do. It'll tax more than your reflexes, so thickies beware.

There are more missions than you can shake

a stick at and they're progressively more difficult to complete.

A challenging and refreshing RPG which makes up for graphical deficiencies with an abundance of playability.

# MEGADRIVE DEVIEW

Before you have a go on a Virtual Reality machine, make sure the name of the game is in! WildSide. Ysee, this particular game is a little too real in fact it's so real the end of game boss has escaped from his computer-induced confinement and is capturing all the kids who part with their cash for a taste of

ultra-realistic gaming action.
This is where you, Kid Chameleon, come in to the proceedings. You just happen to be the best gamesplayer that ever there was, and you reckon that your platforming abilities are of such a high standard you can quite easily beat the game, defeat the Master Mold, rescue the kids and lawkin in free credits down.

at the arcades any time you may wish.

### MASK-ULINITY

### CHAOS MASK SPECIAL ABILITY: Smashing

charge
The Chaos mask transmogrifies
Kid into a spiky warrior of doom.
He is also able to charge through
walls should he build his inertia up.
Don't try this on nasties though as
it won't work.

### SAMURAI HELMET

SPECIAL ABILITY: Swordplay Become a lethal Samurai warrior with the Japanese-style helm. Dishing out twirty sword doom is your aim, especially with your hyper-effective jumping downward thoust!

SPACE HELMET
SPECIAL ABILITY: Laser rifle
Nab the futuristic space helmet for
fun and frolics of the wide-beam
laser kind. A handy helmet to have
but it doesn't show up that often,
so guard it with care.

### ARMOUR HELMET

SPECIAL ABILITY: Climbing This helmet transforms Kid into a medieval knight-type capable, rather bizarrely, of scaling sheer walls with little difficulty.

### INVISIBLE BOXES

You may think that are more than enough craits a round for all your bonus taking needs. Unfortunately, you'd be hopplestly wrong Seeing the problem, the thoughtful the problem, the thoughtful mortified of of involve house, on every level. The best example of these is found in a secret room on the second level. The caver is seeingly full enough of boxes, seeingly full enough of boxes, but once you have destroyed them all, keep jumping. There are say, more secret boxes waiting to burst open and guid for their contents.

### NOW YOU SEE IT

Dotted around the landscape at certain intervals are transporters. These are your friends, most of the lime. Usually they beam you onto the next level, or past some trive section of ferrain. However, section of ferrain. However, the control of the section of the temporal his whome of by pleasure in life is to send you way back into the tevel thus wasting precious time and forcing you to renegotiate completed secret.

A long animated intro tells the story of the Kid Chameleon.

### **TANTALISING BOXES**

Kid might be a gamer extraordinare, but it's likely he'd get nowhere it it were not for the query boxes spread throughout the game. These boxes contain vital code crystals which reap borus points, extra line with which to compliet the level, extra energy, borus lives and best of all - Chameleon Masis. Donning these masks provide Kid with a variety of special abilities, some of which can be seen here.

Phewl The excitement reaches | fever pitch as Kid crosses a bridge.

### MEGADRIVE

## REVIEW

# GUARD SPECIAL ABILITY: Axe throwing Grabbing the hockey mask

Grabbing the hockey mask transforms Kid into a Jason Vorgeese-type axe throwing psychopath! This is especially handy against projectile-firing enemies.

### SUPER HELMET

Speed/hurricane power
Turn yourself into a super-fast
superhero with this throbbing
purple helmet. It also endows you
with the ability to perform
hurricane jumps known for their
deadliness to your enemies.

### COMMENT

orts of differen it's difficulty setting. The game is far too easy to finish. There's only one tough bit (Warrior Hill about six levels into the game) where it takes quite a lot of practice to get through, but it's plain sailing all the way to the finish. Things are helped a little by the fact that the game is rooms, bonuses and different routes through to the end that you do keep coming back for more, but even so, it eventually becomes rather dull. It's a shame really - had a properly graded difficulty setting been introduced into the gameplay to accompany the many brilliant touches and neal gamenlay.

er-egos, particularly the tank

ranked alongside Sonic and Robocod as one of the best platform games available on the Megadrive. As it stands, though it's an enjoyable game that should appeal more to platform game beginners than out-and-out platform freaks,

who just won't get their money's

Looks like Clive Barker had a hand in this

### COMMENT

Kid Chameleon is certainly a nove twist on the platform concept. The twist on the piatform concept. In addition of Kid's multiple personalities certainly add to the originality and make things a bit more interesting, especially wher you're searching around for the mask you need and are desperately running out of time. The graphics are also good, with

tinct and detailed sprites for RAD each persona and some pleasing inimated backgrounds. However when it boils levels. All that changes is the scenery, the time limit and occasionally the size of the platforms. Kid Chameleon is very playable, but suffers from being a little easy. A bit more frenetic combat and more varied platform action would have made this a dead cert winner, but as it stands it's just a decent example of a well-explored Megadrive

Y- SFGA

GAME DIFFICULTY: EASY LIVES: 3 CONTINUES: 3 SKILL LEVELS: 1 RESPONSIVENESS: GOOD

### PRESENTATION 80%

Nice storyline intro and title screen, plus options and intermission screens.

The cartoony sprites are small, detailed and nicely animated and the backgrounds are

### great.

The sounds are of a fairly good quality, although the backing music itself is bland

and the effects lack volume.

Quite fast, certainly responsive and the multitude of headgear makes it varied and very enjoyable to start with...

...but the lack of challenge results in the game being completed fairly easily - which is a real shame

A very playable game which could have been a classic but for a couple of flaws. Beginners will enjoy the action, but it might be too easy for seasoned platform addicts.

**DEATH SKULI** SPECIAL ABILITY: Mega tank If you've ever wanted to be a skeleton sitting in a tank which fires explosive skulls and leaps about like nobody's business, the death skull is for you. Have a care though, or your pointy-helmeted

iapes will meet a premature end.

### E MUTANT HERO

Just when you thought you'd seen the last of hou Turties, up they pop again to tight come order, more on the NES. The distriction of the come of the time of the NES. The distriction of the come of the mis appairing his plants for global orderination, has pensited planty of help for his new escapade of larror Has known affects which regimens of Foot robots, scendist nat Baxter Stockman, evil allor Knag and his dorsing multan boogsyards Selector Krang and his droolin

and Rocksleady.

To achieve his ends more easily, the spiky one has to achieve his ends more easily, the spiky one has hatched a series of the discous plots designed to Jure the Turdies into a vising of deadly traps. The bast for these traps are the amphibian martial arists' best pals who are kidnaged without a moment's missis' best pals who are kidnaged without a moment's missis' per plant of the property of t

almost certain death.
TMMT 2 is a conversion of the hugely successful
Konami coin-op of 1990. All the levels and baddies of
the prinning are here, along with a few new ones neve original are here, along with a few new ones nev en before! You control any of the four turtles who ip around the screen and duff the enemy over with ir individual weapons. At the end of each level, an pecially hard challenger awaits, such as Bebop, ang or even the Shredder himself!

In the words of the song, they're the world's most fearsome fighting team and that's not surprising considering the sort of ninja-related hardware they cart around. Leonardo is a bit nippy with his twin Katanas, which are

quite slow but have reasonable

range and power. Donatello's bo

staff does little damage but makes up for this with its superior reach and speed of use. Michelangelo wields his short range, high power nunchuka with quite some speed, whilst Raphael's much maligned Sai knives combine a fast fire rate with hefty damage, sacrificing a great deal of range for the privilege

### ▲ The bad guys get the be

The coin-op original of Teenage Mutant Ninja Turtles allowed up t four players to participate at any one time. Sadly, for some reaso Turtles II is not Four Score compatible, so a full complemen available simultaneously. Still, and a friend can combat evil in memory of the pair who had to stay at home.

The Shredder is certainly hedging his bets when it comes to his Turtle-destroying antics. Not only has he built legions of Foot robots to dispatch his arch-enemies, but he's also set a series of cunning traps. Should you stray too close

### **NINTENDO**

### COMMENT

When you first play it, TMNT 2 looks pretty good: the graphics, sound and gameplay are all fairly true to the arcade game. But play it longer and two major weaknesses are exposed. Firstly, the game suffers from a low difficulty level and completing it takes very little practice, particularly for anyone who's played the arcade game at all. And secondly, there's not much

AN in the way of variety. The beat 'em up action is fun at first, but since it hardly changes from level to level it all becomes rather

predictable. The two-player action adds a bit more fun, but even that gets dull after a while. To be honest, unless you're a complete Turtles nut, you'd be better off buying a more challenging and varied beat 'em up like Ninja Gaiden or Kabuki.

Everyone knows about the mutants' lust for the foodstuff they call pizza. With this in mind, the popular fast food chain Pizza Hut have sponsored the game! Every background has a veritable glut of Pizza Hut posters and ads to encourage games players to stop playing games and start eating mountains of yummy dough-based take-away grub.

paying £40.00 for

TURTLE TURTLES

KONAMI

RELEASE DATE: NOW GAME DIFFICULTY: EASY LIVES: 3 **CONTINUES: 3** SKILL LEVELS: 1 RESPONSIVENESS: QUITE QUICK

Choice of turtles and presentation screens aplenty.

The sprites lack definition, but they're quite large and feature nice animation.

A rendition of the cartoon theme tune plays throughout and there are suitable effects to accompany events.

Responsive controls and straightforward

beat 'em up action makes this easy to get into.

...but the low difficulty level and lack of

variety result in the game becoming prematurely dull.

An entertaining game - for a while. There just isn't enough to it to sustain interest for long.

## REVIEW

A h... Wimbledon! The thrill of rain-soaked days and expensive strawberries and cream. Then of course there's always the excitement of the game itself - the stunning railles, the grunting Czechoslovakian female players. the breathlaking points and the swearing losers. All this and more can

Wimbledon casts you as a young British tendin hopeful, out to prive to the world just how good you are at hitting balls over the net. To this end, you can see the Wimbledon tennis courts to practice in a seeies of exhibition matches or you can enter the world crecul proper and participate in the major tennis grandstam events. There's even the option to face up to another human player in a one-one tennis match or play with them (or against them) in some distulber, related chromon.

subles-related clowning.
But as Britain's number one (seeded 2,093 in the

# HARD, CLAY OR ON THE LAWN?

When you choose to play an exhibition match at Wimbledon, you can select to play on a hard, clay or lawn surface. These different courts all effect the bouncing power of the ball to different extents. The lawn surface makes for a smaller bounce as opposed to the hard and clay courts. Not surprisingly, the hard court produces the highest bouncies.

Low bounces abound on the lawn court.
The hard court in all its glory.

According and an appropriate the second seco

Oh no! It's out! Some of the players look a might peeved off at their ineptitude.

The clay court has many unusual qualities.

### COMMENT

As a tennis fan, I really enjoyed playing this. Okay, so the players are a bit on the small side, but they're detailed and very nicely animated. The presentation

is outstanding. ULIAN with a massive variety of play options and excellent stills and cameo shots of the players. But it's the gameplay that kept me playing. The action is tough and fast, and although it takes a lot of practice to get used to the sheer speed, once mastered you can pull off some pretty spectacular shots. With its sheer variety of options and excellent two-player mode, Wimbledon Tennis is a game that's highly recommended to tennis fans.

ABREST 15 CHEAT 15 CHEAT 0

### GRANDSLAM BUFFOONERY

Two options are presented to you at the beginning of the game. EXHIBITION MATCH enables you to play a one-off three set match against the computer or a friend. GRANDSLAM TOURNAMENT lets you to participate in a series of ranking world tournaments, including (not surprisingly) Wimbledon!

### TOURNAMENT **ACTION**

At the beginning of the Grandslat tournaments, you are given 15 points to distribute through three categories for your player - speed power and skill. As you progress through each tournement tourse.

### COMMENT

players are like starved refugees from Honey, I Shrunk The Kids as they're actually as high as the net and are positively dwarfed by the massive tennis court! More unrealistic still is super-powered pace the players run at. The thing is, because your players are so

miniature, they have to run at that RICH speed to get around the court and return some of the shots! Wimbledon also underwhelmed me with its soundtrack. The crowd noise is okay, but the awful aural din that is the in-game soundtrack is simply horrifying. As far as gameplay goes, Wimbledon is pretty good. It is actually quite a laugh to play - especially in two-player mode, and the masses of options (including singles and doubles matches with one or two-player modes) makes for some variation in the gameplay. Unfortunately, there's quite a lot wrong in the computer opponent's game logic. Defeating him doesn't seem to be down to skill he always gets to the ball and it just seems to be down to luck as to whether he hits it or not. In the Grandslam mode, the three set matches just last too long. By the end of the first set I was just too bored to continue. However, I imagine that once you've got your character up to scratch and start playing against more experienced opponents, it should get a whole lot better. The Master System is woefully lacking when it comes to tennis games,

I didn't really think that much at all of this when I first loaded it up. The

# NINTENDO REVIEW Bolie Chan is a bit rippy when it comes to the old

Jackie Chan is a bit nippy when it comes to the old kung-fu antics. His leapin', kickin and general pain-causing truly knows no bounds. It should come as no surprise, then, to find that an action game has been based on the many scrapes he finds himself in during his plethora of kung-fu movies.

In this particular sojourn, his top chick Chin Re Kon has been kidnapped by an evil wizard. Said maglician just happens to have an army of martial atta warriors, deadly death traps and killer fish at his disposal, not to mention a horridly hazard-ridden path to the wizard's tower.

Jackie Chan's Action Kung-Fu is a conversion of the immensely ace PC Engine platform beat 'em up dame in which the hero races through many levels of combat action in order to reach Mr Pointy Hat and rescue his damsel.

### RIBBIT RIBBIT HIVA Frogs are Jackie's friends. These green creatures hop

Frogs are Jackie's friends. These green creatures hop around unawares until he clobbers them with one of his martial arts moves. When this happens, an icon pops out. Sometimes it's life-replinaising food, sometimes extra magic or best of all, it could be an extra move. These moves supply Jackie with a limited number of super-powerful kicks which further his cause to some effect.

### COMMENT

Jackie Chan's Action Kung-Fu combines challenging and highly addictive platform action, kung-fu adjenty, a huge playing area. excellent graphics and great sount to produce a really superb game. Although Jackie's combat moves are limited, there's so much in the game that you simply never seem to exhibit the progression.

JULIAN tough one and punching and whicking all the way through to the end takes a lot of practice - but the game is suc fun you just keep on playing. The Nintendo certainly isn't short of platform games, but Jack Chan's Action Kung-Fu has enough new feature and chopsocky action to make it an utterly essential purchase.

MEAN MACHINES 72

# JAGUEG ACTION KU

### MAGIC MOVES AHOY

There are three extra moves which Jackie may collect, although he is only allowed one at a time. The simplest is the jumping roundhouse, guaranteed to do away with one particularly grussome enemy in front of him. Next is the spinning leap kick. Perform this and any evil minions in the vicinity eat show. Best of all is the ferbalat kick, which sees Jackie sourvestion. Best of the property of the particular that is not a simple source of the property of the pr

A spinning kick!

BROOM HAS BUNGARAGE

The films that made Jackie Chan so famous are popular mainly because of the stunning fight sequences (many of which landed Chan and his associates in hospital with serious injuries!), but also because of the tongue-in-cheek humour present in most of them. As with the other

film-related elements, this streak can be clearly seen in Jackie's game. Just watch Jackie leap up agony as he lands on a bed of spikes! Even better, watch his wide-eyed agonized twitching

when he loses a life!

Every so often a bell appears in the sky. If you should see one of these, you're advised to grab it. The benefits of doing so are twofold. First of all, you're whisked off to a bonus screen where you jump to and from a number of small clouds which disappear as you touch them. The more clouds you reach, the higher your score at the end of the round. The second handy feature of the bell is that it teleports you a short distance forward through the level. Useful, eh?

## NINTENDO

REVIEW

Jackie has a pained expression as he lands on a supersharp spike!

#### COMMENT

If it were to reach the standard of the films, Jackic Chan's Action Kung-Fu would have a lot to live up to. When I heard it was another platforr game I must admit I was fearful for it's y my fears were and Action

quality, Luckity my fears were never realised and Action Kung-Fu is a fab game. The balance between lighting and platforming is set perfectly, so platforming is set perfectly, so platforming and the platforming and the difficulty level is set just right loo. It's easy neutry at loo. It's easy neutry at loopier. True, you are given a lot of continues, but they're accessed on the tills screen so all of it's and the king-Fu is a frest. The sprites or large and well animated with a number of humorous fouches and the scrolling is smooth. Juskick chain si Action Kung-Fu is a fedinitely original enough to 14 Seldinitude of the scrolling and so well advised to give it a go the well advised to give it a go.

## TURBO-RELATED SKYLARKING

A quick stab of the C button on your fursty joyped sighons purp the your fursty joyped sighons purp the grant of the grant

You've just taken delivery of a Fetran F80. the utilimate in limited edition sport aces. So what you are going to do with 17 Polish it daily and look after it with lender loving care? No, of course not. Since you've a cool duck eithe preferre staff marks on the road rather than in your underwear), you're going to viciously hack of the roof and rost the engine by burning along the roads of . America in the faibled Turbo Outurn competition.

This wheel spinnin', engine ruinin' contest involves driving your Ferrari along 16 sprite-based 3D stages and literally outrunning the competition! This comes in the form of normal traffic like Minis and Juggernauts along with vehicles taking part in the contest, like

Porsche 959s and other high-powered sports cars. There are only two problems. First of all, you must complete each stage in an allotted time period or you are instantly disqualited from the Outrum-related proceedings. The second problem comes in the form of the US law enforcement officers, who see you high-speed shemanigans as being in some way harmful to the other law-abiding road users.

So put your foot to the floor and burn rubber!

## SELECT

## TRANSMISSION There is a choice of two gearboxes

at the beginning of Turbo Outrun. The manual "box leaves control of the transmission to you. Thankfully, your Ferrari only has two gears (tow and high), so deciding when to change up or down shouldn't be that difficult. The softer option is the automatic gearbox. Unsurprisingly, this changes gear for you automatically thence the name).

Keep a look

out for the cops!

#### COMMENT

mat was calle Outrun, I was

equel a true representation of ne classic arcade race game. I ame away with my hopes orribly dashed. Apart from the since even a complete doze object of the control of effects and badly drawn sprites make for a sad first impression, and hopeless car handling, poo Into tevess or play seem to be exactly the same make those first impressions last. And if that's not enough, the shape of the tracks, background graphics and other car sprites bear no resemblance whatsoever to their arcade counterparts - this is Turbo Outrun in name only. If you're after racing excitement, check out Super Hang-On Super Monaco GP or Road Rash or alternatively wait for Super Monaco GP II. Whatever you choose, it'll be miles superior to this clapped out Robin Reliant of a race game.

17930 LAPO'13"

At the end of every four stages, there is a free automobile upgrade kit waiting for the successful Turbo Outrun contestants. Three different kits are on offer

**ENGINE:** This fuel guzzling souped-up engine powers up the top speed performance of your car quite considerably.

TYRES: The special formula rubber that makes up these tyres aids your Ferrari's road handling Very useful.

TURBO: The turbo upgrade boosts the potency of your nitrous oxide injection - making for even more staggering acceleration!

#### COMMENT

rogrammers had an opportunity op ut things straight. Infortunately, they've flushed that hance straight down the toilet ith this completely inept driving ame. The visuals are just pathetic

ind malformed scenery. The car tes look like misshapen, twisted renditions of coin-op's. The sound is truly tragic, boasting iscordant, jarring effects and cacophonous, praining music. All could be forgiven if Turbo Jutrun played well but unfortunately, the game ass many flaws. Perhaps the most glaring one is halt the Ferrar handles nothing like its coin-op-quivalent and you're often spent spinning off the vorong because of the cack-handled collision felection. The difficulty levels are also unbalance with some levels have seen some some properties. hat the point of coin-op conversions was to bring he arcade game to the smaller screen - and in this espect Turbo Outrun is a complete failure. Go for Road Rash and Super Monaco GP and put all Turbo Outrun-related thoughts out of your mind.

CONTINUES: NONE SKILL LEVELS: 5 RESPONSIVENESS: POOR

Pretty poor overall, although the highscore screen is quite nice.

The sprites are reasonable, but the backdrops range from awful to barely average. The 3D effect is also very poor.

The Megadrive "interpretations" of the coin-op's tunes are shallow and twee.

A bungling, unresponsive control method makes Turbo Outrun a shambles to play...

and the uneven, unrewarding gameplay and stupid difficulty settings result in it being placed on the scrapheap very quickly.

A big, big disappointment, Turbo Outrun looks similar to the coin-op, but plays nothing like it.

# HOTLINES

## SUPER NES

The Super Famicom is simply the greatest gaming tool in the universe! And there's one up for grabs on this red-hot phone line. You know the score. Dial away and see if you can win.

0839 335523

## GAME GEAR

Fancy trying to win one of those portable, colour Game Gear doubries? Dial up the number above and listen, and you never know. One of those fabbo machines could all be yours!

NEO-GEO + 1 Game

any years ago there was a desolate wasteland Called Karg. Nothing grew there, but strangely there was a motley human population. A passing god known only as Nexus saw this land and took pity on its inhabitants, transforming the desert into a lush valley of prosperity

Sadly. Nexus had forgotten all about his night out with his pal Void the demon. Perhaps understandably Void was more than a little miffed to find his supposed mate gallivanting off creating new societies instead of joining him for a game of snooker and a meat pie.

This is the reason why the inflamed Void saw fit to wreak sixty-six years of cruel vengeance upon Nexus' people by stealing the Rod of Power. This minor incident escalated beyond the tiff stages and led to Nexus and Void partaking in a bit of fisticuffs. During this battle the rod was broken in two, and for some strange reason the two deities decided to turn each of their halves into rings, to prevent the other from gaining total control.

So what has this got to do with you? Well, you are Buc, top sorcerer, who must now gather your party of fearsome warriors, recover all the lost rings and return them to Nexus assuring freedom and fabness for all eternity.

This task is performed in isometric view, with your characters roaming around the environment in a similar way to that seen in the Immortal. Spells must be learned, characters conversed with and battles won before your quest is out

ere are two modes of view in Rings of Power. t is a general overview which shows your

Plenty of RPG-related

A The map of the land

#### COMMENT

RAD

#### DON'T BE SO SORCERY

Your party consists of six wizards, each trained in a different art of sorcery. You are a sorcerer, the general all-purpose wizard with few specialist spells but a wide variety of handy low-power spells. Knights have a number of particularly nasty combat spells, such as Rend and Sever. Archers have mastered metaphysical kinetics and as a result can impose great forces (such as sharp magical arrows) onto (or into) their enemies. Necromancers have mastered arts which can either damage or heal bodies, or at great levels even raise the dead! Enchanters can change matter (including themselves) from one form to another which

> allows them to pull off handy stunts such as creating a pool

scrolling, a hopeless combat system, unfunny jokes, tortuously slow gampelly, feeble graphics and ear-rendingly avolt und ruin the great ideas behind the game and make it a real mess to play and the state of the s

## MEGADRIVE

RELEASE DATE: OUT NOW GAME DIFFICULTY: HARD LIVES: 1

CONTINUES: PASSWORDS SKILL LEVELS: 1 RESPONSIVENESS: SL-0-0-0-W

Smart title screen, intros and detailed story screens accessible from the options screen.

Dull, poorly deformed sprites. Shambolic scrolling and hardly any animation. The backgrounds are hideous as well.

Crummy (out-of) tune plays throughout unfortunately, and the effects do nothing to

## lift the aural gloom.

Slow, unresponsive and frustrating, It's hard to make your characters do what you want them to and it's not much fun when they do.

Rings of Power is a big game, that's for sure, and it's not easy either. Unfortunately it's so bad that you probably won't want to bother.

A brave attempt a Dungeons and Dragons-style adventure game which is spoiled by poor programming.

oor old Wonderboy. First off, his girlfriend gets kidnapped by an evil demon, then a dragon king threatens to destroy his people. After that he gets transformed into a small dragonette and has to fight the dragon king again to regain his human form. Now he's got back to his village to find - guess what - it's been overrun by evil monsters from the north! Aaaagh!

Still, he's still got all his sword-swinging platform-jumping abilities intact, and you can be sure he'll be using them to their full extent in this, the fifth installment of the Wonderboy saga.

monster!

Wonderboy in Monster Land is a big game. So much so that it comes with a battery back-up, so that you can save your game a continue later. This is don nd the night there and not o is your energy fully replenished by you're offered the option of savin

MEAN MACHINES 88

### Wonderboy's other new skill is his mastery of magic. Wonderboy has learned to cast a number of spells learned to cast a number of spels, namely Firestorm. Thunder, Quake. Power. Shield and Return. The first three are offensive spells used to damage opponents, Shield guards Wonderboy for a short time, Power restores damage done to the youngster and Return is a special spell whose use only becomes apparent at a later stage in the game.

## **MEGADRIVE**

### **QUEENS AND FAIRIES**

### COMMENT

I was quite disappointed with Wonderboy in Monster Land when we got the Japanese version in a couple of months ago. It's

quite easy to see why, now, as the RAD masses of

Japanese text meant that a lot of important clues were overlooked and the game was rendered completely unplayable. As you may expect, the official English version doesn't have this problem, so how does it fare against the multitude of other Megadrive platform games? To start with, the graphics are nice, the sprites and backgrounds are highly colourful and detailed. although the animation leaves something to be desired. The sound is laughably limp with a pseudo-tune lisping its way along to the accompaniment of some weak effects. Fortunately Wonderboy is very playable. The platform element is quite simplistic when placed against

Robocod, but the puzzle/role-playing elements are absorbing and enjoyable. Wonderboy is also pretty big. you're certainly going to need the battery back-up if you want to complete the game. If you're a bit bored of the same old platform stuff or you don't want a full-blown RPG, Wonderboy is a recommended purchase

the likes of, say Sonic or

Wonderboy gets tooled up

### COMMENT

All gr br so we the you ex Me W

Although the graphics aren't brilliant and the sound falls woefully short of the standards you'd normally expect from the Megadrive, Wonderboy in

Monster Land is JULIAN both absorbing addictive - all thanks to the marvellous playability. The challenging platform action and the tricky but logical puzzles combine together with the game's enormous size to give massive depth of gameplay. There's tons to discover, and the game's many original features and novel concepts keep you playing just to see what's around the next corner. If you're looking for a platform game that'll keep you playing for weeks rather than days, this should be put at the top of your

GAME DIFFICULTY: MEDIUM

CONTINUES: SAVED GAMES

SKILL LEVELS: 1

RESPONSIVENESS: GOOD

### ENTATION 200/

No options, but the in-game presentation is excellent

## ellent.

Chunky, colourful sprites and backgrounds.
The scrolling is smooth, but the animation is poor.

## OUND 53

Oh dear. The tune is feeble and pathetic to say the least, and the effects follow suit in their ghastliness.

## PLAYABILITY 87%

Absorbing and involving puzzle elements go along with Wonderboy-style platform action to make this instantly interesting.

### ASTABILITY 89%

Some of the puzzles take a bit of work to solve, and there's enough of them to ensure Wonderboy won't be completed in a hurry.

## **VERALL 88%**

An interesting and intriguing meld of puzzle, role-playing and platform action which should keep Wonderboy fans happy for weeks.

#### HOW TO PLAY WITH YOUR THING

Easily the most important character to take notice of is Sonia. found in her house in the village. Not only does she reveal the whereabouts of Queen Elenora but she also gives the location of the essential musical instrument used to open doors in the monster indeout and she teaches you how to play the thing!

## Invitation to the Gamesters Club

This is the one you've been hearing about, and this is your invitation to join.

Receive monthly newsletters, with great competitions, contests, and prizes and outrageous game get togethers and discount game show tickets + huge discounts on games. You could even be a T.A. star for a day!

Join now, and receive your free tee-shirt and baseball cap.

For information on how to join call 0891 662 551. Calls charged at 36p per minute cheap rate, 48p other times.

## NINTENDO

ite is full of problems for young Jason. His life too a distinct downturn from the moment his beloved pet frog escaped into the garden. This alone would have been bad enough, but then the unfortunate creature happened to jump into the barrel of atomic waste stored at the end of the lawn. Such a sudden and huge exposure to radiation caused something of a change in his froggy metabolism and the slimy amphibian began to grow into a creature of Digby the Biggest Dog in the World-ean proportions. To complete his master's misery, the green-skinned wonder then hopped down a hole to a dangerous. underworld of sewers, robots and death traps.

Not wanting to lose his pride and joy, Jason immediately followed his Kermit-like chum into the rift. braving whatever dangers should face him.

Luckily Jason is not defenceless. At the bottom of the deep shaft the boy discovered an alien tank waiting for him, complete with a full set of body armour and complement of personal weapons!

Blaster Master is based on a book about the adventures of Jason and his tank in an underground world hitherto unseen. The game is split into two parts. One is a four-way scrolling platform game in which you control the tank. The second gives you command of Jason himself as he enters sewerage drains in his search for the missing frog.

The boy investigates that

and the second s

The game kicks off with you in quite an agile number and is turning on a sixpence. It also has angle to the sky or straight

boss which can take him a step

One boy and his frog. Aaah!

A desperate bid for froggy freedom

Oh no! Not the radioactive waste!

It's just too late for the hapless amphibian

Plenty of Nintendo games have ace intro sequences and Blaster Master is another fine example, as this sequence of pictures illustrates

Look out for that conveniently placed tunnels

Faithful Jason follows his chum

Tank joy-riding japery ahoy!

**NINTENDO** 

## REVIEW (1)

## ORSEPL

What a completely mega picture of your tank! mass destruction on all and sundry

tank possess is useful enough, it pales in comparison to the other weapons which are available if weapon is powerful enough but the These intelligent mega-missiles Missile barrages are another handy tank bolt-on. Collect this activated allowing you to wreak

The animated into which tells the story is somewhat strange and things don't get any more sensible from there. Luckly the surrealism doesn't get in the way of the game isleef. Blaster Master is a big game which takes some exploration. Even when you know the right way through a level there's always more rooms and bonuses to discover. It is also very such a surreal to the property of the property

enjoyable to play, there's lots to do and plenty going on at all times so the pace is always fast and frenetic. The cute graphics aren't as sickening as you migh expect and add to the bizarre tone of the proceedings, with the accompanying sound effects and tunes promoting the atmosphere still further. Blaster

the accompanying sound effects and tunes promoting the atmosphere still further. Blaster Master is definitely one of the best of the current batch of NES games and should be added to your collection forthwith.

#### PRESENTATION 70%

Nice animated intro but no options. The in-game presentation is superb.

game presentation is superb.

The sprites are detailed, well animated and colourful and the backgrounds are

## unobtrusive.

The tune sets the mood of the game

perfectly and there are some good effects to go with it.

There's lots to see and do, plenty of levels and loads of variety.

### ASTABILITY 88%

The size, challenge level, variety and enjoyability of the game should keep you involved for ages.

## VERALL 91%

A great title which, although it offers nothing stunningly new, is a lot of fun to play and represents great value for money.

ecmo World Cup was quite popular in arcade form, mostly due to its arcade-style approach to the game. Technical aspects of the sport are lost in place at last action and hundreds of goal attempts in the limited playing time.

The ball is passed with superb accuracy at the touch of a button, and shooting is done with another. When you're off the ball, the shoot button does a slide tackle which if timed correctly wins the ball from the opponent.

### STORM IN A WORLD CUP

They don't call it Tecmo World Cup for nothing you know, because should you fancy tournament-related horseplay, the World Cup awaits! Take charge of one of twenty-four teams in your attempt to win that elusive statuette. The tourney is run in the same way as the real thing, with the first heat being decided on a points basis and subsequent rounds run as a knockout competition.

### COMMENT

A It's the "latter half" and Germany lead

03:22 FAG01

## BALL-KICKING TECHNIQUES

Professional footballers have made quite a name for themselves with their uncanny knack of kicking the ball in a number of ways. If you've always envied this, Tecmo World Cup gives you a chance to realise your dreams. Your on-screen players are capable of everything from standard short passes to chip shots, overhead kicks and banana shots! Unfortunately, the more complex moves require some practice and may even require the ball to be passed to a pre-positioned player from a specific angle!

The Tecmo World Cup coin-op wasn't exactly inspiring (although it was quite fun for twenty pence). and this conversion fails to improve on its faults. The graphics are exceedingly bland in their two-dimensional jerkiness. The sound is limited to one effect and a Chesney-esque warble of a tune. What really puts the boot in is, of course, poor gameplay. The loose collision detection makes it

mpossible to run around opposing players and tackles are ridiculously easy to perform. This means the only way to score goals is to boot it right down field with a succession of long passes The World Cup is also badly run. The first few ounds are far too easy and then the computer activates its "telepathy" mode, anticipating all your moves before your computer-operated players have a chance to react. Even in two-player mode Tecmo has lost all of it's appeal. Looks like it's still a case of hanging on for Super Kick Off.

### **MEGADRIVE**

A sad solo effort.

What is going on here?

#### COMMENT

there's a new one - the rubbish LIAN Tecmo World up. Yes indeed, it's big isappointment day for football ins as once again we're forced o wait for a decent game of the ort to appear on this machine What's wrong with this one? Well, the graphics and sound are average, but it's the playability where the game falls lat on its face. For a start it's ridiculously easy to beat - I slaughtered it on the lowest level, then cranked it up to its highest difficulty setting and still stuffed it 2-0. Another problem is that it simply doesn't play like football. The best way to get the ball up the pitch is to continually press the fire button - the players pass to one another like magic - and when you're in the 18-yard area simply run at the keeper on a gonal line and hoof it into the net. Tecmo World Cup is simply a very dull game which fails to provide footballing fun even

with two players. Soccer fans should sit on the bench and wait for Super Kick Off.

SKILL LEVELS: 3
RESPONSIVENESS: LAME

### PRESENTATION 76%

Quite a few options and static screens to interest you.

### RAPHICS 43

The sprites are wooden and the backgrounds are dull - even for a football game!

#### OUND

Poor tunes and effects fail to generate any sort of soccer atmosphere.

### LAYABILITY 51%

The simplistic soccer action and the low, low difficulty setting makes playing this a doddle.

## LASTABILITY 39%

Limited controls and lack of challenge destroys the single-player game, and the lame gameplay means that even the two-player mode gets dull quickly.

## OVERALL 47%

A naff conversion of a poor arcade game which fails miserably as a football game.

nessage is received over the emergency frequency. "Lt. Snake," it says "the enemy have a new weapon with which to crush our defences. It's the Metal Gear II, an upgrade of the deadly killer war robot you destroyed three years ago in your last flick-screen arcade action game. Your mission is to attempt a sabotage operation in the same style as your last Sneak in under cover of darkness, explore the four-way flick screen environment for hostages, rations, ammunition and equipment. Then you must break into the heavily guarded maximum security base in which the Metal Gear project is housed. destroy the prototype and demolish the base so no further evil mechanoids can ever terrorise the peace-loving populace of our country."

Never being one to disobey orders, you recruit two crack soldiers and set off deep into enemy territory to put an end to their vile plans of conquest once and for

The action's hotting up to almost unbearable levels here.

mean, strutting dude: Snake!

TRANSMIT I JOHN JENNIFER

BATTL DETECT RADAR MAP ......

RTN EQUIPMENT The one other item of equipment at Snake's disposal

is his transmitter. Snake uses this to call on the help of his aides, who are hiding in the scenery awaiting Snake's commands. If you need someone to rush to your side, dial them up on your handy-dandy transmitter and see them leap to your rescue

▼ Snake receives his orders.

SNAKE, THE PUR-POSE OF YOUR MISSION IS TO INFILTRATE THE ENEMY'S STRONG-HOLD.

Just when you thought Metal Gear was the worst example of this type of game on the NES, along comes the sequel, determined to outdo its predecessor in every respectincluding that of being miserably dull and tedious. The main fault lies in the control method. Snake is sadly incapable of moving in a adly incapable of moving in a

iagonal direction. This might n sound so bad, but when there are RAD three or four enemies who just where they are and shoot at you without feer of retailation (unless you spend all day charging around the screen) it gets more than a tad annoying. The gameplay is also very repetitive. There is little difference between each screen either graphically or gameplay wise. The graphically themselves are very disappointing. The sprites are mail ormed and indistinct and the backgrounds are all pretty much the same within each level. The all pretty much the same within each level.

Close-up action here as Snake infiltrates enemy

territory.

This password comes in

Winter in the jungle (?).

The enemy gang up on poor Snake

HETAL GEAR 1 CODE NO:VRC-4

ing combat!

GAME DIFFICULTY: EASY

LIVES: CONTINUES: INFINITE SKILL LEVELS: 1 RESPONSIVENESS: SLOW

Password system and weak intro screens but very little else.

Crude, badly animated sprites and bland backdrops.

A hideous twisted mutation of a tune and truly sorry effects.

There's not really much to it, plus it's very repetitive and the controls are annoying.

The infinite continues and lack of challenge, coupled with the frustrating gameplay ward

you off very quickly.

Could have been brilliant, but Snake's Revenge is instead an irritating and boring exploration game which falls far short of its potential.

#### FLASHING YOUR MONKEY ASS

Some of the collectables in Toki give the baboon-like character non-offensive power-ups. Collect the trainers for example and Toki is able to leap massive distances. On the other hand, a shining star grants th Harrod-esque being temporary invulnerability. You can tell when this is in effect because Toki Bashes.

### APE-RELATED BLASTING

Toki starts off the game spitting small fireballs. However, as you progress through the game more power-up weapons make themselves available. ман 8882 81824. <sup>2</sup> 1802.

FIRE: This curry-powered weapon enables Toki to breathe fire and try his opponents!

TRIPLE FIRE: Triple fire is much like normal fire, but Toki shoots off in three directions at once.

POWER FIRE: Save energy by not firing and Toki is able to spit massive fireballs!

#### COMMENT

l like the coin-op. but this is nothing like it. Okay, so it has the same main character and power-ups, but unfortunately the screen layouts have been

completely JULIAN changed - for the worse. Instead of being fast, furious and fun, the platform action is drawn out, dull and very irritating. There are many virtually unavoidable traps dotted around the landscape which you only discover when you fall foul of them, forcing you to remember exactly where each one is and the steps required to avoid it. It's easy to see why the programmers have put those in though, because apart from the frustrating traps there's nothing in this game to stop you going all the way through on your first go. All the end-of-level baddies are ridiculously easy to beat and during the level the enemy sprites offer no opposition to your antics. Those who've played the original coin-op will certainly despise this ruination of the brill game, and those who haven't will find this a bland and unchallenging platform game. There are loads of better games of this type on the Megadrive shop around and make your choice.

BALLS: Toki shoots off energy balls that generally bounce about killing any meanies they touch.

## SUB-AQUA BABOONERY

COMMENT

I can't really say I was a big fan of the coin-op, but to be honest this isn't really a lot like the arcade machine at all. The programmers have taken a lot of liberties with the game, stripping down the levels and power-ups, and taking away most of the fine backdrops that made the original look so nice. The gameplay itself is dull and

frustrating, with evil traps in each RICH level that your reactions on their own are not good enough to deal with. To get anywhere, it's a case of remembering each stage's layout. To be perfectly honest. Toki is a chore to play, heavily lacking in the excitement stakes. The final nail in the coffin is the incredible amount of lives and continues you're able to endow yourself with. Using these options, finishing this game in one session becomes very possible - if you can stand the vapid, boring gameplay. I'm afraid that this isn't worth £35.00 at all. If it's a new platform game you're after, I'd recommend giving Kid Chameleon or Alisia Dragoon a spin

GAME DIFFICULTY: EASY LIVES: 1-9 CONTINUES: 1-7 SKILL LEVELS: RESPONSIVENESS: GOOD

Nothing much to write home about, apart from a fair range of gameplay options available.

The sprites look good, but the animation is a bit lacking and the backdrops are quite drab.

complete very quickly

A pretty good tune plays throughout the game and the effects are okay.

Toki's easy to pick up and play, but the game is quite boring and has many

frustrating elements...

.. and the absurd amount of lives and continues available make it a game you'll

The Megadrive has many quality platform games that make Toki look like the dull, unoriginal game it is.

# NEW GAME

# PREVIEW

HOT CONSOLE GAMES COMING SOON...HOT CONSOLE GAMES COMING SOON...

Converted from the mega Williams coin-op, Smash TV on the Super NES look like being one of the best shoot enu pse were shad on a console screen it is based with the state of the state of

All of the slick graphics, sampled sound and ultra-volent gameplay of the colin-op have been crammed into Acclaim's Super NES conversion, making Smash TV one of the most compulsive, satisfying blasts yet seen! If you want to know more about this amazing product, look out for a full review in a future issue of MEAN MACHINES.

# SUPER FAMICOM

Look out for Dr Franken, a Gameboy arcade adventure that's going to hit the streets sometime during the summer. You play the

part of the eponymous Dr Franken, who runs around a massive 250-screen castle trying to track down bits of his exploded chum. Bitsy. However, there are plenty of taxing puzzles lying in wait ready to hamper Frankie's progress, so plenty of mind-bending cunning is required to access the later levels. Best described as a sort of Prince of Persia style game with heavier adventure overtones, Dr Franken seems to shaping up quite nicely. As soon as the game is complete. we'll give you more details.

# JOE AND

Already out on import for the Super NES, Joe and Mac (aka Caveman Ninja) is ready for an official May release on the Nintendo

Not surprisingly, the game casts you as Joe, and in two-player mode your pal adopts the mantle of Mac, who are out for vengeance after some rival cavemen pinched all the cave-women from their settlement The game is a horizontally scrolling platform effort, with Joe running around throwing wheels and axes at a variety of vicious prehistoric beasts

As you can tell from the screenshots, NES Joe and Mac is pretty close to the arcade original. and there's some skill six-level parallax and sampled sound to astound and amaze. MEAN MACHINES will have the exclusive review next month

# INTENDO

# **NEW GAME PREVIEW**

Take the wheel of a massive 4x4 off-road truck and participate in Ivan "Ironman" Stewart's Super Off-Road Racing - a conversion of the popular

three-player coin-op. Super Off-Road is best described as a sort of jazzed-up version of the old Atari coin-op, Super Sprint. A quartet of 4x4 trucks race around a series of dirt tracks with but one objective in mind - to reach the chequered flag first. The prize money you earn is spent on various power-ups at the "Ironman" shop, including nitro boosters, souped-up engines, improve shock absorbers and better tyres.

The Super NES version of Super Off-Road features simultaneous two-player action and includes gameplay and presentation tweaks along with extra tracks, making it even more playable, better-looking and longer-lasting than the original Leland coin-op! MEAN MACHINES will have the definitive review in the near future.

improves on the coin-op in the presentation CED TOYOTA

The programmers have even added to the coin-op by placing extra hazards o the track during later level.

# SUPER FAMICON

Amazina! As this screenshot shows, Super Off-Road is visually identical to the Leland coin-op. Even the animation on the 4x4 trucks

# NEW GAME PREVIEW

Warner Brothers' fifty year-old rabbit cartoon character is starring in his very own Nintendo game! Bugs Bunny's Birthday Blow-Out stars the popular "wabbit" as he runs around a platform environment picking up carrot icons. Unfortunately, his worst enemies have got wind of his carrot-collecting clowning and have banded together to sort out their wise-guy nemesis once for all. Included in the baddie line-up are the lovable likes of Wile E Coyote, Elmer Fudd and the

Tasmanian Devil Aimed at younger Nintendo owners, Bugs Bunny's Birthday Blow-Out looks like being quite a laugh. MEAN MACHINES will be carrying a detailed review next month

ed on the excellent Sean Connery movie, The Hunt for Red October puts you in control of the most advanced Russian submarines yet devised. It boasts ed weaponry and a prototype device that makes the submarine invisible to radar! How you've decided to defect to the West - taking the sub with you! As you may have gathered, this is all an excuse for some horizontally scrolling action as the Red October uses its uncanny resources to blast a way through the pursuing Russian fleet AND the nerican scouts that perceive the Red October as a

The preview copy of the game we've seen doesn't look too hot at all, with some of the most indescribably rrible music yet ever to issue forth from the endo. Whether the gameplay makes up for it or not you'll find out for sure when we review the finished product in our very next issue

# Street Fighter II: World Pl

# THE STORY SO FAR...

Capcom's Street Fighter II: The World Warrior is definitely THE greatest arcade beat 'em up ever devised. Featuring the most detailed, well-animated sprites and backdrops ever seen in a beat 'em up, along with perfect crunching sounds, it's instantly recognisable in any arcade. But the thing that makes Street Fighter II the most amazing combat game yet seen is the sheer variety in the hyper-addictive gameplay. Mastering all eight characters and every one of their combat moves involves literally months of intensive, fun-packed play.

Eight combatants from all over the world have entered the Street Fighter II challenge. Each of them is a master of a deadly art of combat and dedicated to bringing the coveted Street Fighter II championship award back to their country.

But it is a long and arduous path ahead. First of all, one participant must prove his worth by single-handedly defeating the other contestants in a series of one-on-one combat rounds. Only then can the worthy challenger face up to the four remaining guardians of the Street Fighter contest - Balrog. Bison, Vega and the twisted Sagat!

Street Fighter action from around the world.

# Phenomenon

## **HISTORY**

When Street Fighter II was released in 1991, no one imagined that it would go on to become one of the popular coin-ops of all time. It instantly topped every arcade chart workfwide and still holds the top slot today after almost a year!

By popular demand, Capcom have reprogrammed Street Fighter II for Nintendo's amazing Super NES and a near-finished version was on display at the Winter CES Show two months ago. Not surprisingly, this version is almost arcade perfect, incorporating every character from the coin-op and the essential simultaneous two-player option. This is all made possible due to the fact that Street Fighter II is Nintendo's first 16-meg cartridge - giving it twice the memory capacity of Capcom's own Final Fight conversion!

▲ Select your fighter.

### SUPER NES PICTURE

▲ The above picture shows the Super NES version of Street Fighter II. This massive 16 mega-bit cartridge packs in all of the characters and special moves of the monster coin-op. The finished conversion should be out by June this year.

### FIGHTER PROFILE

Over the next five pages, we present the full lowdown on eight of the world's greatest Street Fighters, detailing each of their deady attacks and special tactics. The back page of this book gives you profiles on the last four unselectable opponents that stand between you and the title as the world's greatest Street

▼ Some more topper action-style tomfoolery.

# Who Is The Strongest Stree

When it comes to speed and power, Ryu is decidedly average. However, the deadly nature of his cyclone and dragon punches have been renowned since ancient times.

Incredible reaching abilities and crushing holds just aren't good enough to keep Honda alive in most two-player bouts. However, clever players should soon discover Honda's special talents, like his long-reaching front kick and the power-draining hundred-hand slap, which drains energy even when an opponent blocks.

The most popular character in Street Fighter II becomes the most deadly once you have mastered the Sheng Long dragon punch. This is the most devastating attack available, especially when used against an opponent in mid-jump.

Honda has joined the Street Fighter II competition to prove the superiority of the Japanese Sumo Wrestler. He is the embodiment of the ancient Japanese spirit.

# treet Fighter?

Unlike Ryu's calm and precise attacks, Ken is a lethal, unstoppable foe when his berserker rage takes hold. However, even this is vulnerable to the Sheng Long dragon punch!

Like Guile. Chun Li has an amazing jump throw that picks off jumping opponents by hurling them back at the ground. This move is particularly lethal to Dhalsim, so should you be playing him, keep to the ground or else!

Chun Li throws Guile with ease

### KEN

Although Ken and Ryu trained together and possess very similar abilities, Ken moved to America in order to train against a greater variety of more dangerous opponents.

# CHUN LI

Possessing incredible speed, Chun Li can overwhelm opponents in seconds and is the only female competitor to make it to the Street Fighter finals this year. Proclaiming herself 'the strongest woman in the world', you can't fail to be amazed at her agility and combat skills.

# Are You A World W

Possessing inhuman speed and diverse combat manoeuvres, no one can stand up to Blanka's continuous barrage of physical aggression. Clearly not human, Blanka is one of the most physically intimidating characters in Street Fighter II.

Blanka is by far the easiest character to successfully master. Once you've got to grips with his special moves, you should have no problem in demolshing opponents with powerful, fast blows. A good strategy is to catch your component off-guard with a cannon ball attack and then head-but them into unconsciousness. Since Blanka has no throwing techniques, use the deadly neck-bite to damage opponents with attempt to block. Blanka's best defence is his viscous hunder storm move, but wanton out for missels attacks from your opponents.

Guile's combat skills were honed to perfection in the American military, making him a very worthy contender for the World Warrior trophy. Although he isn't the fastest or strongest character, scientiess, pressing attack has paved the way for many victories.

# We Are Waiting For Your Challenge

Although Gulle is an loy cool character, he assaults his opponents without restraint. His normal kick alone is very powerful, but it is his somersault kick that is particularly devastating.

# Warrior?

storm manoeuvre, Blanka fries Zangief!

Russia's finest wrestler has 13 deadly special moves to help him defeat the other contestants. Zangief is the strongest competitor in Street Fighter II, so if you face him try to stay out of arm's length. Failure to do so results in you falling victim to bone-crushing attacks like face crushes, whip smashes or brain-busters to name but three. Being so large, Zangief is quite slow, but remember, he only really needs one chance to demolish his opposition!

Ken is the victim of a really nasty spinning pile-driver - the most powerful move in the game!

Although he moves slowly, Zangief's pile-driver and brain-buster moves are the most powerful attacks in the whole game!

's most powerful attacks smash Bairog!

Incredible reach and fierce flame attacks make Dhalsim a arms and legs. As well as punching and kicking, his stretching grip is great for throwing his enemies at range. Although primarily a character specialising in long-range attacks, Dhalsim has a sneaky close-range head-butt that floors any opponent.

A master of yoga, Dhalsim is capable of manipulating his body in ways that are unbelievable to ordinary men. His only real weakness is his slow speed.

# The End?

## BALROG

Bairog is the first of the final four boss characters. Despite his limited number of moves, he possesses immense punching power that even inflicts damage if you block!

# SAGAT

A veteran from the original Street Fighter coin-op, Sagat is Thailand's kick boxing champion. These techniques didn't help much in the original game, so he's learned a smashing new attack - the tiger uppercut. This powerful move is quite similar to the dragon punch.

To become the World Warrior champion, first of all you need to beat your other Street Fighting chums. After that, four more even deadlier opponents lie in wait. Each one of them has mastered combat techniques stronger than yours – and all of them will delight in your painful demise!

## VEGA

Vega is as much an athelete as he is a warrior. Armed with a vicious claw glove, this Spaniard attacks without mercy and uses the walls and the fence to launch his assaut. Vega is most susceptible to attack as he is landing from his jump from the wall.

# M BISON

The deadliest of all the Street Fighters stands between you and the World Warrior trophy. Bison specialises in unfeasably fast combination attacks that finish the inexperienced player within seconds. The best tactic is to keep your guard up. Use every skill at your disposal and fight to win!
